Faculty of Health
Pathways to Nutrition & Dietetics

Minimum requirements for direct entry into the Masters programs are a tertiary degree recognised in Australia, plus a background in tertiary human nutrition, biochemistry and human physiology. Chemistry studies are pre-requisites for human biochemistry studies.

**Undergraduate Degrees**

Bachelor of Human Nutrition

Bachelor of Public Health with Nutrition Major

Bachelor of Applied Science in Human Biology with Nutrition Major

Any double degrees that include a full year of physiology and biochemistry and at least 2 (MN) or 4 (MND) nutrition units

**Postgraduate Degrees**

If you already have a science degree, but not the necessary pre-requisites:

Graduate Diploma in Nutritional Science

Master of Nutrition

Or

Master of Nutrition & Dietetics

The University of Canberra offers Scholarships for current school leavers who achieve a raw ATAR of 95 and over and who have accepted an offer of a place in their first undergraduate degree at University of Canberra.
