The Discipline of Pharmacy offers two pathways for students to enter the profession of pharmacy. The career entry pathways are the Bachelor of Pharmacy and the Master of Pharmacy (Graduate Entry Masters).

**Bachelor of Pharmacy**

**Undergraduate Degrees as pre requisites for Masters of Pharmacy**
- Bachelor of Human Nutrition
- Bachelor of Pharmaceutical Science
- Bachelor of Public Health
- Bachelor of Applied Science in Human Biology
- Bachelor of Medical Science

*Students must have a degree in the Health Sciences or equivalent, including units of study in Anatomy, Physiology, Chemistry, Biochemistry, Microbiology and Introductory Pharmacology and maintain a GPA of 5 or above in that course*

**Master of Pharmacy**

Graduates can work in hospitals, community pharmacies, pharmaceutical industry, aged care, consultancy, health promotion, government, community aid, schools, academia or policy development.
