Shanghai Study Tour Inspires UC Students
19 July 2012: A group of University of Canberra graphic design students have returned from a study tour of Shanghai, China, where they drew inspiration for work they exhibited in a local gallery.

The 13 students toured the city and prepared individual digital artworks for an exhibition at Shanghai's Big Warehouse Gallery, which is dedicated to contemporary art.

Mentoring the students on the trip were the University's assistant professor of graphic design, Lisa Scharoun, and lecturer, Tat-Ming Yu. Dr Scharoun said the 16-day tour and exhibition were a creative success.

"We sent 13 of our most talented final-year students on a study tour of Shanghai to create a series of posters inspired by the people, sites, sounds, smells and visual culture of Shanghai," Dr Scharoun said.

UC Olympians and Paralympians Take on London
26 July 2012: Look out London, some of Australia's Olympic Games and Paralympic Games representatives are students, alumni or staff from the University of Canberra, and they're gunning for gold.

As an Elite Athlete Friendly University, the University supports student Olympians and Paralympians by helping them manage their study alongside their training commitments.

The University currently has over 70 elite athletes, one of the highest numbers in Australia. 13 current students, three alumni and one staff member are competing in either of the Games.

Vice-Chancellor Professor Stephen Parker said the University is proud of the role it plays in supporting elite athletes achieve their academic goals.

"We count some of the country's top sports people among our students and alumni and it is great to see such a strong number of them representing Australia at the 2012 Olympic and Paralympic Games," he said.

Giant Tea Cups a Winning Brew for UC Students
21 August 2012: An idea by University of Canberra students to place giant tea cups around Canberra to promote the city's cafe culture and lifestyle has won the Ultimate Business Design and IT Challenge (UBDIT) competition.

The aim of this competition – a joint venture between the University and the ACT Government – was to inspire students to design ways to market and promote Canberra as a business destination, a location and a place to study, work and travel. The finals were held at the University earlier this year.
