## NOTES

- 1, Not all University of Canberra courses admit international students each year. Those courses marked with an 'No' are not available for that admission period in 2011.
- 2, The University of Canberra sets its fees according to an annual rate method. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. For example, if a student only enrolls in 3 credit points then the student will be charged  $3/24 = 0.125 \times$  annual rate. In 2006 the University changed its fee charging method. The annual rate that applies in the year a student commences will apply until the student completes the degree (as long as the student completes in minimum time e.g. completes 24 credit point each year).
