## NOTES

- 1, For the purpose of charging fees, graduate certificates, graduate diplomas and masters courses are considered to be discrete courses, even where they belong to a suite of courses. Accordingly, students who upgrade from a graduate certificate to a graduate diploma to a masters course will be charged at the annual rate applicable for the year in
- 2, A 'closed' or 'No' status indicates that a course is not open for admissions in that period for in 2011.
- 3, The University of Canberra sets its fees according to an annual rate method. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. For example, if a student only enrolls in 3 credit points then the student will be charged  $3/24 = 0.125 \times$  annual rate. In 2006 the University changed its fee charging method. The annual rate that applies in the year a student commences will apply until the student completes the degree (as long as the student completes in standard part-time enrolment duration). The only exception to this rule is postgraduate research students. If a postgraduate research student is charged tuition fees then the tuition fee rate approved each year will apply to the student. (i.e. the fees are not fixed and may vary from year to
