OUR BUILT ENVIRONMENT SPECIALISATIONS

ARCHITECTURE

Be the architect of your future

This degree combines the technical and pragmatic skills of the mechanics driving the construction industry, from the raw understanding of material properties and details used in construction on site, to the higher level picture of developing contracts for a project, planning project activities and budget management.

Expand your understanding of what it means to work in construction as you focus on multiple areas of knowledge gained in construction, law, physics, maths, english, estimating, project management, people management, and 3D modeling, and more.

WHAT YOU WILL STUDY

- Heritage Conservation
- Work Integrated Learning
- Architecture Studio
- Architecture History
- Architecture Theory
- History and Culture
- Built Environment Technology

CAREER OPPORTUNITIES

- Building Designer
- Policymaker
- Urban Designer
- BIM Modeller
- Project Manager
- Architect (after completing a Master of Architecture degree)

“Ranked #1 in the ACT for full-time graduate employment in Architecture & Building” - GUG, 2022

Duration
3 years

Delivery mode
On-campus

Portfolio Entry
Available

ABBO01

BUILDING AND CONSTRUCTION MANAGEMENT (HONOURS)

Take your career to new heights

At UC we will provide you with the knowledge and skills required to gain your Class A builder's license and the confidence to manage and supervise a team.

Learn to apply the technical and practical skills driving the construction industry. Gain an understanding of material properties and learn best practice project planning, budget management and contract development.

This degree has an embedded honours component which prepares students to develop advanced knowledge and skills for professional work, critical thinking and further learning corresponding to AQF Level 8 qualifications.

WHAT YOU WILL STUDY

- Building and Construction Studies
- Building Information Modelling
- Estimating and Measurement
- Project Management
- Contract Administration
- Quantity Surveying

CAREER OPPORTUNITIES

- Builder
- Developer
- Construction Manager
- Project Estimator
- Construction Project Manager
- Site Manager

Duration
4 years

Delivery mode
On-campus

Portfolio Entry
Available

ABB101

INTERIOR ARCHITECTURE

Create inspirational spaces

As the only university to offer interior architecture in the ACT, you'll gain an introduction to the field of interior spatial design and develop robust creative and critical thinking skills to visualise the potential of interior environments.

You'll also gain hands-on experience to use and evaluate a range of innovative industry-standard creative technologies to solve diverse design problems and tell a story using space.

You'll graduate with the required knowledge and skills needed to practice as a dynamic, agile and creative interior design professional.

WHAT YOU WILL STUDY

- Visual Communication
- Interior Architecture Studio
- Interior Architecture Technology
- Design Studio
- Heritage Conservation
- History and Culture

CAREER OPPORTUNITIES

- Interior Designer
- Film and Television Designer
- Visual and Spatial Branding Designer
- Furniture Designer
- Project Manager
- Event Planner

“Studying at UC gave me the confidence to try different disciplines within Interior Architecture. I feel I am a much more well-rounded practitioner within my profession, thanks to the study methods at UC.” - Alana Ring

Duration
3 years

Delivery mode
On-campus

Portfolio Entry
Available

ABBO02

LANDSCAPE DESIGN

Design the world of tomorrow

UC's Bachelor of Landscape Design will develop your skills in planning and designing outdoor spaces in both public and private settings such as parks, gardens, commercial centres and waterfront developments.

This dynamic and innovative course combines research-led teaching with practical learning including design studio activities, seminars, tutorials and field trips. With the opportunity to be involved in projects across the globe, you'll gain the practical experience needed to forge a successful career.

High achieving graduates can seek professional accreditation from the Australian Institute of Landscape

Architects (AILA), upon successful completion of the 1-year Bachelor of Landscape Architecture (Honours).

WHAT YOU WILL STUDY

- Design Studio
- Plants and Animals
- Three-Dimensional Landscapes
- Landscape Systems
- Heritage Conservation
- Landscape Architecture Design

CAREER OPPORTUNITIES

- Landscape Designer
- Policymaker
- Landscape Assessment Officer
- Urban Designer
- Administrator
- Project Manager
- Architect (after completing a Master of Architecture degree)

Duration
3 years

Delivery mode
On-campus

“

UC promoted a healthy level of competition and collaboration that has provided me with invaluable skills.

”

KATE SHEPHERD

UC Alumna

Master of Architecture and Bachelor of the
Built Environment (Architecture)

Award winning architect Kate Shepherd is living out her passion for design by immersing herself completely in the lifestyle and demands of architecture.

After graduating with her Bachelor and Master of architecture degrees (with a study in Finland as part of UC's international network), Kate went on to complete her architectural registration whilst working at local firm, Stewart Architecture. Currently Kate is working as project architect with multi-award winning Australian architecture practice, FJMT in their U.K. studio.

Finally getting a chance to put her UC-instilled architecture skills to the test, Kate is now directly involved in the design process, master planning, leading her own projects, and working with high profile clients and government organisations.

“I think in the design environment, there is always an aspect of unknowingness and uncertainty in your own work,” Kate says. “If I was to give one piece of advice to future graduates, it would be to take a risk, trust yourself and your ideas.”

“The thing I miss most about UC is the element of open collaboration that you get working in the studio environment”, Kate fondly recalls. “UC promoted a healthy level of competition and collaboration that has provided me with invaluable skills to confidently put forward my own views and ideas in a professional setting. This experience has been completely invaluable to me progressing as a young architect.”

READY TO APPLY?

DOMESTIC STUDENTS

Current Year 12 students should apply through their relevant state University Admissions Centre:

All states (except Queensland)

Apply through Universities Admissions Centre (UAC)
www.uac.edu.au

Queensland only

Apply through Queensland Tertiary Admissions Centre (QTAC)
