**2 Weeks Experiential Learning in
the Most Diverse Place on Earth**

APPLICATIONS ARE OPEN!

Learn more about the program at indogenius.org

Two of most important trends in the world today are the economic re-emergence of Asia and increasingly rapid technological change. India is at the heart of both.

Knowing more about this extraordinary country could well become relevant to your future career.

\$3000 New Columbo Plan grants are available for eligible undergraduate students.

I would highly recommend this! 11/10!

Luka Beda, University of Adelaide

NCP Australian Government Funded
