

48TH AUSTRALASIAN UNIVERSITIES
BUILDING EDUCATION ASSOCIATION
(AUBEA 2025) CONFERENCE

2025
AUBEA

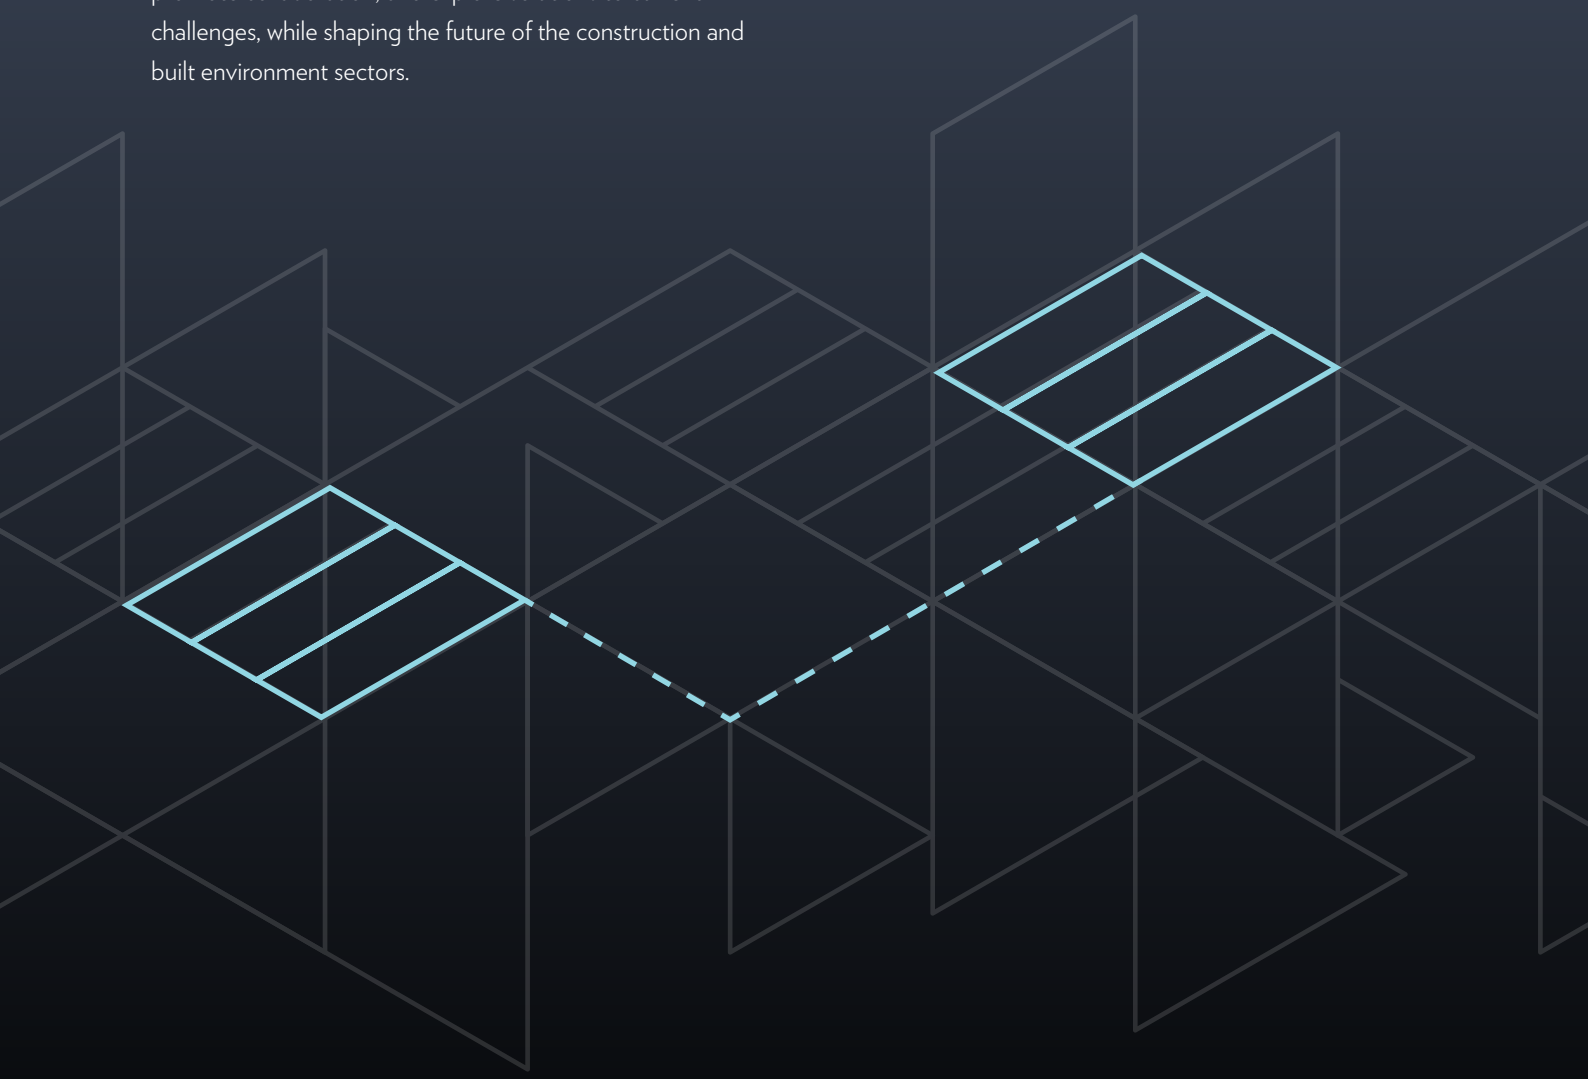

26–28 November 2025 | University of Canberra
Faculty of Arts and Design

ABOUT AUBEA 2025

The 48th Australasian Universities Building Education Association (AUBEA) conference will be hosted by the University of Canberra, Canberra, Australia from 26–28 November 2025. AUBEA 2025 is organised by the School of Design and the Built Environment, Faculty of Arts and Design, University of Canberra.

With the theme “*Building Sustainable, Smart, and Resilient Communities: Planning, Design, Construction, and Education*”, AUBEA 2025 (Website: <https://www.canberra.edu.au/about-uc/events/aubea-2025>) will bring together researchers, educators, students, and industry professionals from Oceania and surrounding regions. The conference aims to foster knowledge sharing, reflect on best practices, promote collaboration, and explore solutions to current challenges, while shaping the future of the construction and built environment sectors.

AUBEA conference usually has 100–200 participants from the Australasian region, attracting both academic and practitioners, as an ideal platform to discuss challenges and future of the industry. Being sponsor to this conference will bring invaluable opportunities such as receiving acknowledgement from across the region, interaction with leaders of this sector and connecting with new academics and professionals etc. This is a great opportunity to increase the reputation of your organisation nationally and internationally across the building/construction industry and associated education sector.
