

Clinical Placements
with Older People

BINGO!

(2nd/3rd Year)

Student Placement Learning Activities

This resource was adapted by the CPOP team from an initial resource created by Leesa Scott (RN, CPOP Clinical Liaison Nurse, University of Canberra).

Copyright CPOP 2025.

The CPOP program is made possible through the Aged Care Nursing Clinical Placements Program, funded by the Australian Government Department of Health, Disability and Ageing.

BINGO QUESTIONS

Question: What is the most common type of dementia in elderly individuals? Answer: Alzheimer's	Question: What medication is often prescribed to manage symptoms of Parkinson's disease in older adults? Answer: Levodopa	Question: What class of medication is typically used to manage the symptoms of gastroesophageal reflux disease (GERD) in older adults? Answer: Proton Pump Inhibitors (PPIs)
Question: What is the chronic condition characterized by progressive lung disease, especially in older adults? Answer: COPD (Chronic Obstructive Pulmonary Disease)	Question: What is the umbrella term for the irreversible loss of mental functions, including memory and reasoning? Answer: Dementia	Question: What is the term for a sudden, severe decline in mental function in older adults, often reversible? Answer: Delirium
Question: In which step of the nursing process do nurses set patient-centred goals? Answer: Planning	Question: What is the name of the condition characterised by a decrease in bone density, often leading to fractures in older adults? Answer: Osteoporosis	Question: What condition is characterized by excessive fluid accumulation in the lungs, often seen in older adults with heart failure? Answer: Pulmonary oedema
Question: What is the term for a blood clot in the lungs, which can be a risk in older adults with limited mobility? Answer: Pulmonary embolism	Question: What step of the nursing process involves gathering patient data? Answer: Assessment	Question: What is the name of the assessment used to evaluate a patient's risk of falls based on their history and physical condition? Answer: Falls Risk Assessment Tool

BINGO QUESTIONS

Question: What is the term used for mandatory reporting in aged care? Answer: Serious Incident Response scheme (SIRS)	Question: How many Aged Care Standards are there currently? Answer: 8	Question: What is the condition where there is chronic inflammation and pain in the joints, often seen in older adults? Answer: Arthritis
Question: Which vitamin is crucial for bone health and is often deficient in older adults? Answer: Vitamin D	Question: What is the acronym used for wound assessments Answer: T.I.M.E	Question: What is the condition that involves difficulty swallowing, often seen in older adults? Answer: Dysphagia
Question: What medication class is commonly used to prevent blood clots in elderly patients at risk of stroke? Answer: Anticoagulants	Question: What does the B stand for in ISBAR? Answer: Background	Question: What organ does cirrhosis affect? Answer: Liver
Question: What is the Glasgow Coma Scale used to assess? Answer: Consciousness		

BINGO

Background	Serious Incident Response Scheme (SIRS)	Arthritis	Liver
Pulmonary Oedema	Dementia	Alzheimer's	8
COPD (Chronic Obstructive Pulmonary Disease)	Anticoagulants	Consciousness	Proton Pump Inhibitors (PPIs)
Falls Risk Assessment Tool	Osteoporosis	Delirium	Vitamin D

BINGO

Levodopa	Consciousness	Osteoporosis	Delirium
COPD (Chronic Obstructive Pulmonary Disease)	Pulmonary Embolism	Vitamin D	Background
Arthritis	Dementia	Proton Pump Inhibitors (PPIs)	Assessment
Serious Incident Response Scheme (SIRS)	T.I.M.E	Dysphagia	Pulmonary Oedema

BINGO

Pulmonary Oedema	8	Falls Risk Assessment Tool	COPD (Chronic Obstructive Pulmonary Disease)
Serious Incident Response Scheme (SIRS)	Arthritis	Assessment	Pulmonary Embolism
Alzheimer's	Proton Pump Inhibitors (PPIs)	Vitamin D	Dementia
Background	Levodopa	T.I.M.E	Osteoporosis

BINGO

Delirium	Dementia	Levodopa	Liver
Alzheimer's	8	Vitamin D	Consciousness
T.I.M.E	Anticoagulants	Falls Risk Assessment Tool	Arthritis
Assessment	Proton Pump Inhibitors (PPIs)	COPD (Chronic Obstructive Pulmonary Disease)	Osteoporosis

BINGO

Serious Incident Response Scheme (SIRS)	Alzheimer's	8	Liver
Proton Pump Inhibitors (PPIs)	Background	T.I.M.E	Delirium
Pulmonary Oedema	Vitamin D	Planning	Osteoporosis
Dysphagia	Falls Risk Assessment Tool	COPD (Chronic Obstructive Pulmonary Disease	Consciousness

BINGO

Anticoagulants	Liver	Pulmonary Embolism	Dysphagia
Assessment	Levodopa	Osteoporosis	Delirium
Falls Risk Assessment Tool	COPD (Chronic Obstructive Pulmonary Disease	Consciousness	8
Planning	Vitamin D	Background	Proton Pump Inhibitors (PPIs)

BINGO

Vitamin D	Serious Incident Response Scheme (SIRS)	Delirium	Alzheimer's
Dementia	Background	Proton Pump Inhibitors (PPIs)	Falls Risk Assessment Tool
Planning	T.I.M.E	Osteoporosis	Pulmonary Oedema
Consciousness	Dysphagia	Pulmonary Embolism	COPD (Chronic Obstructive Pulmonary Disease)

BINGO

Levodopa	Assessment	Dementia	Arthritis
8	Planning	Dysphagia	Osteoporosis
Liver	Serious Incident Response Scheme (SIRS)	Background	Delirium
Pulmonary Oedema	COPD (Chronic Obstructive Pulmonary Disease)	Alzheimer's	Anticoagulants

BINGO

Vitamin D	Osteoporosis	Serious Incident Response Scheme (SIRS)	T.I.M.E
8	Dysphagia	Assessment	Pulmonary Oedema
Arthritis	Dementia	Falls Risk Assessment Tool	Consciousness
Background	Proton Pump Inhibitors (PPIs)	Levodopa	Planning

BINGO

Dementia	Pulmonary Embolism	Dysphagia	Pulmonary Oedema
Assessment	Consciousness	8	Serious Incident Response Scheme (SIRS)
Osteoporosis	Liver	Delirium	Planning
Falls Risk Assessment Tool	Background	Alzheimer's	Proton Pump Inhibitors (PPIs)
