Disclaimer:

Annual fee rates

The fees shown are the annual fee rates for the course. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. Information on how fees are calculated can be found [here](#).

About this course

Learn how to empower and transform the lives of those in need

Delve deeper into the science and strategies that help people live full and meaningful lives regardless of age, disability, social or mental limitations, with this thought-provoking 2-year, full time, UC Master of Occupational Therapy course.

This study path is perfect for students who are committed to a career transforming the lives of everyday people, groups, and communities and are serious about earning the qualifications to prove it.

In this course, you will get to develop a deeper understanding and appreciation of health-related issues, top up your credentials with researched based competencies; and gain valuable on-the-job experience in real life scenarios.

Successful completion of this course will earn you a qualification recognised by Occupational Therapy Australia and the World Federation of Occupational Therapists which can open doors and opportunities in the health profession on a global scale.

Apply today and become the difference in the lives of others.

Study a Master of Occupational Therapy and you will:

- learn how to work with people and communities to enhance their ability to engage in the occupations they need to, want to, or are expected to perform in
- work with a variety of people, including those who have an impairment of body structure or function, are restricted in their participation or are socially excluded
- develop the qualities of critical thinking, curiosity, and reflective practice
- use your foresight, initiative and leadership skills to communicate effectively with clients and work in inter-professional teams
- acquire essential professional practice ethics and traits, such as multi-cultural appreciation, and respect for others.

Work Integrated Learning (WIL)

WIL is an integral part of this course, giving you an invaluable opportunity to gain practical experience and form strong relationships with industry stakeholders and professionals before graduating.

Over two years, you'll participate in 1000 hours of practical education in places such as hospitals, health clinics, community organisations, school and aged care facilities both locally or nationally.

Placements are full-time basis and will require interstate travel. Accommodation and transport costs are the student's responsibility. For further information on WIL please visit <https://www.canberra.edu.au/current-students/canberra-students/work-integrated-learning>

There is also scope for international study/work placements in countries such as Canada and South East Asia, all of which offer incredible learning experiences and unique opportunities to network at a global level.

Note: local/national/international placements include credits that count towards your degree.

Career opportunities

UC Master of Occupational Therapy students will graduate into an industry that is expected to experience enormous and continuous growth as the aging population of Australia, and the rest of the world continues to grow.

As a result, there is expected to be a high demand for those with a master's in occupational therapy to help guide research and policy practices in a variety of areas including aged care, disability services, paediatric services as well as many other community-based support services.

Once graduated, students can choose to continue with further study, or move into a variety of jobs in a range of public, private and voluntary sectors, including:

- homes, schools, and workplaces
- health and rehabilitation centres
- supported accommodation
- aged care
- hospitals

Course-specific information

To apply for admission to the Master of Occupational Therapy course, students will need to have completed a bachelor's degree in any discipline with a credit or higher average.

Professional accreditation

The Master of Occupational Therapy at the University of Canberra fulfills the requirements for entry level education of occupational therapists and has been awarded the status of a professionally accredited occupational therapy course by Occupational Therapy Australia and the World

Admission requirements

A completed bachelor's degree in any discipline with a credit or higher average.

Admission to this course is competitive. Applications will be assessed on the basis of academic merit and the number of available places. Please be advised that domestic applications open on the 1st September and close on the 30th April each year. Domestic applicants must apply through the Universities Admissions Centre (UAC) (<http://www.uac.edu.au/postgraduate/>). Offers for semester 2 2021 intake will be released on 27 May 2021, 1 July 2021 and 22 July 2021.

International applications are accepted at any time. Please refer to the key dates (<https://www.canberra.edu.au/future-students/apply-to-uc/key-dates>) for further information.

Periods course is open for new admissions

Year	Location	Teaching period	Teaching start date	Domestic	International
