About this course

Social experience is being transformed with new forms of identity and new social problems emerging. The Bachelor of Social Science provides an opportunity for students to sociologically explore their contemporary social worlds. How do social patterns shape who we are, what we can do, our access to resources, and the ways we make meaningful lives? How do we individually and collectively understand, act on and experience the social terrain we inhabit? Students have the option to complete an open major from anywhere in the university. The multi-disciplinary Indigenous Studies major provides an opportunity for students to extend their knowledge of social, economic and political issues in Indigenous Australian society, including government and non-government sectors. Students who complete the requirements of the major in Indigenous Studies within the Bachelor of Social Science program may elect to graduate with a Bachelor of Social Science in Indigenous Studies.
