# About this course

## Double degree: Extend your capabilities in science and communication

Extend your capabilities and broaden your career prospects with our double degree. Get all the conceptual and analytical skills you'll need for an outstanding career in science and communication.

## Combine a Bachelor of Science with a Bachelor of Communication in Journalism at UC to:

- develop the ability to reflect and adapt in a rapidly changing media environment
- build skills in a range of formats: print, video, audio and online
- be trained in a range of journalistic forms, including: investigative, long form, and emerging digital techniques

- access industry-standard broadcast and online facilities to produce and present your work
- be able to think critically, analytically and ethically
- examine the role of journalists in the broader media context
- integrate theory and practice to become an informed practitioner, aware of changing industry practices and the broader context of your work

## Study opportunities

- Our staff members bring a broad range of experience to their teaching - from newsroom journalism to more specialist forms of practice. All their teaching is informed by their ongoing and up-to-date research.
- You have the chance to produce news and current affairs stories in print, radio and TV for publication on the student journalism website.

## Career opportunities

- The breadth offered by this double degree empowers you with a broad perspective and flexibility in future professional roles.
- This double degree will increase your range of employment opportunities in both the private and public sectors.

## Important to know

- Finish in 4 years of full time study or equivalent, or
- Exit early with a
  - [Bachelor of Science](#)
  - [Bachelor of Communication in Journalism](#).
