

Bachelor of Exercise Physiology and Rehabilitation

(266JA.3)

Please note these are the 2019 details for this course

Domestic students

Selection rank 82

Note:

The selection rank is the minimum ATAR plus adjustment factors required for admission to the program in the previous year. This is an indicative guide only as ranks change each year depending on demand.

English language requirements

There are non-standard English language requirements for this course. To be eligible you must have an academic IELTS of 7.0 overall with no band score below 7.0 or equivalent. For alternate/equivalent ways of meeting the English requirements for this course please view the English Proficiency Requirements document on the university website.

About this course

Heal the world, make it a better place

Explore the complexities of human movement; develop a broad understanding of the human body; and learn how to help those who are injured or physically impaired get their lives back on track - with the Bachelor of Exercise and Physiology and Rehabilitation.

In this 4-year, full time course, you will gain valuable knowledge and understanding of a variety of health and medical issues afflicting patients across a diverse range of age groups and demographics.

You'll also develop in-depth clinical and analytical skills and explore beyond the physical to discover how exercise as a medicine positively

affects the mental and emotional recovery of each patient.

During your time at UC, you'll also undertake regular Work Integrated Learning (WIL), in the form of professional internships where you will gain valuable experience by using your skills and knowledge in real-life situations.

Throughout this course, you'll also be regularly visited by industry specialists and leaders offering excellent opportunities to network and expand your industry contacts.

Help add value to the lives of others – register your interest in this course today.

Several industry qualifications are also available to students on completion of appropriate units.

Study a Bachelor of Exercise Physiology and Rehabilitation and you will:

- have a deeper understanding of the human body
- be able to identify degenerative changes and disease states
- develop technical skills to address the needs of clients in a clinical rehabilitation setting
- acquire abilities to prevent and manage chronic disease and injury in cardiopulmonary, neuromuscular, musculoskeletal and metabolic conditions
- have the qualifications to be recognised and accepted as an allied health professional
- become officially recognised as an allied health professional
- open the door for further studies including, honours, masters, and Doctorate.

Work Integrated Learning (WIL)

WIL is an integral part of this course, giving you an invaluable opportunity to gain practical experience and form strong relationships with industry stakeholders and professionals before graduating. Over the four years of this course, you'll undertake a total of 500 hours of actual placement in hospitals and health clinics both locally and nationally.

There is also scope for international study/work placements in countries such as Samoa, the UK, and the USA, all of which offer incredible learning experiences and come with study credits that will count towards your degree.

Career opportunities

Graduates of this course will be qualified and ready to work as an exercise physiologist in public and private health sectors including areas such as:

- Chronic disease
- Rehabilitation service provider
- Fitness industry
- Strength and conditioning
- Workplace health/corporate health
- Aged care
- Education
- Community health

- Health promotion
- Management
- Occupational health and safety
- Clinical assessment and screening, e.g., cardiac investigations, sleep studies
- Sports science
- Mental health
- Universities
- Research

Course-specific information

- Students will need to pass a state-specific police check before participating in any WIL placements.
- Upon completion of the degree students will be eligible to apply for membership to Exercise and Sport Science Australia (ESSA) and accreditation as an exercise physiologist.
- Several industry qualifications are also available to students on completion of appropriate units.

The University of Canberra is committed to building a strong and sustainable Aboriginal and Torres Strait Islander health and sport industry workforce. If you are an Aboriginal and Torres Strait Islander person interested in studying a health or sport course, please contact Rachel Harrigan or phone 6201 2608.

Professional accreditation

Upon completion of the degree graduates will be eligible to apply for membership to Exercise and Sport Science Australia (ESSA) and accreditation as an Exercise Physiologist. A number of industry qualifications are also available to students on completion of appropriate units.

Admission requirements

Normal UC requirements for admission to an undergraduate course.

Additional admission requirements

Police checks and working with vulnerable people clearance is required.

Assumed knowledge

ACT: Biology, Chemistry, Mathematical Methods and Physics majors. NSW: Biology, Chemistry, Mathematics and Physics.

Periods course is open for new admissions

This course is not open for new admissions.

Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#). Credit is not permitted

towards completion of a graduate certificate.

Course requirements

Bachelor of Exercise Physiology and Rehabilitation (266JA) | 96 credit points

Required - Must pass 93 credit points as follows

[Expand All](#) | [Collapse All](#)

Major in Exercise Science (MJ0260) | 21 credit points

Required - Must pass 21 credit points as follows

Systemic Anatomy and Physiology (6529) | 3 credit points – Level 1

Sports Medicine (6839) | 3 credit points – Level 3

Human Growth and Development (8338) | 3 credit points – Level 1

Biochemistry of Exercise (8339) | 3 credit points – Level 1

Health, Disease and Exercise (8340) | 3 credit points – Level 2

Physiology of Exercise 1 (8391) | 3 credit points – Level 2

Physiology of Exercise 2 (8392) | 3 credit points – Level 3

Major in Human Movement (MJ0261) | 18 credit points

Required - Must pass 18 credit points as follows

Biomechanics 1 (6834) | 3 credit points – Level 2

Biomechanics 2 (6835) | 3 credit points – Level 3

Motor Control and Skill Acquisition (8913) | 3 credit points – Level 2

Regional Anatomy and Physiology (9808) | 3 credit points – Level 1

Exercise Programming and Prescription 1 (9811) | 3 credit points – Level 1

Exercise Programming and Prescription 2 (9812) | 3 credit points – Level 2

Required Units - Must pass 54 credit points as follows

Introduction to Statistics (6540) | 3 credit points – Level 1

Sport and Performance Psychology (7224) | 3 credit points – Level 2

Nutritional Science (8257) | 3 credit points – Level 2

Advanced Functional Anatomy (8279) | 3 credit points – Level 3

Introductory Nutrition (9280) | 3 credit points – Level 1

Advanced Musculoskeletal Rehabilitation (9378) | 3 credit points – Level 3

Clinical Practice in Exercise Physiology 1 (9379) | 3 credit points – Level 3
Cardio-Pulmonary Conditions and Rehabilitation (9381) | 3 credit points – Level 3
Clinical Practice in Exercise Physiology 2 (9382) | 3 credit points – Level 3
Neuromuscular Conditions and Rehabilitation (9383) | 3 credit points – Level 3
Foundations of Professional Planning (9799) | 3 credit points – Level 1
Research and Professional Practice Part A (6cp) (9813) | 0 credit points – Level 3
Research and Professional Practice Part B (9814) | 9 credit points – Level 3
Sport and Exercise Psychology (10012) | 3 credit points – Level 1
Musculoskeletal Rehabilitation (10069) | 3 credit points – Level 3
Professional Practice in Exercise Physiology (10070) | 3 credit points – Level 3
Exercise Management for Chronic Disease (10072) | 3 credit points – Level 3

Restricted Choice - Must pass 3 credit points from the following

Performance Analysis in Sport (8390) | 3 credit points – Level 3
Sports Nutrition (8721) | 3 credit points – Level 3
Cross-Cultural Professional Practice (9855) | 3 credit points – Level 3

In addition to course requirements, in order to successfully complete your course you must meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course

Typical study pattern

UC - Canberra, Bruce

Standard Full Time, Semester 1 Commencing

Year 1

Semester 1

Human Growth and Development (8338)

Introduction to Statistics (6540)

Regional Anatomy and Physiology (9808)

Sport and Exercise Psychology (10012)

Semester 2

Biochemistry of Exercise (8339)

Foundations of Professional Planning (9799)

Introductory Nutrition (9280)

Systemic Anatomy and Physiology (6529)

Year 2

Semester 1

Biomechanics 1 (6834)

Exercise Programming and Prescription 1 (9811)

Motor Control and Skill Acquisition (8913)

Physiology of Exercise 1 (8391)

Semester 2

Biomechanics 2 (6835)

Exercise Programming and Prescription 2 (9812)

Health, Disease and Exercise (8340)

Physiology of Exercise 2 (8392)

Year 3

Semester 1

Advanced Functional Anatomy (8279)

Nutritional Science (8257)

Research and Professional Practice Part A (6cp) (9813)

Semester 2

Research and Professional Practice Part B (9814)

Sport and Performance Psychology (7224)

Sports Medicine (6839)

Year 4

Semester 1

Cardio-Pulmonary Conditions and Rehabilitation (9381)

Clinical Practice in Exercise Physiology 1 (9379)

Musculoskeletal Rehabilitation (10069)

Professional Practice in Exercise Physiology (10070)

Semester 2

[Advanced Musculoskeletal Rehabilitation \(9378\)](#)

[Clinical Practice in Exercise Physiology 2 \(9382\)](#)

[Exercise Management for Chronic Disease \(10072\)](#)

[Neuromuscular Conditions and Rehabilitation \(9383\)](#)

Course information

Course duration

Standard eight semesters full-time or equivalent. Maximum twenty semesters.

Learning outcomes

Learning outcomes	Related graduate attributes
Knowledge of the structure and function of the human body relevant to the scope of practice of clinical exercise physiology	UC graduates are lifelong learners
Knowledge of degenerative changes and disease states potentially affecting the human body relevant to the scope of practice of clinical exercise physiology	UC graduates are lifelong learners
Knowledge, skill, understanding and application of the assessment, intervention, therapeutic and educational tools relevant to the scope of practice of clinical exercise physiology	UC graduates are lifelong learners
Understanding and application of the duty of care, professional ethics, roles and responsibilities and values relevant to the scope of practice of clinical exercise physiology	UC graduates are professional
Communication skills in listening, speaking, explaining, teaching, writing and reading relevant to medical and clinical exercise physiology scope of practice	UC graduates are global citizens
Ability to read, critique, evaluate and apply evidence from research and science into practices of health care and health services	UC graduates are global citizens

UC graduates are professional

UC students are lifelong learners

Majors

- [Major in Human Movement \(MJ0261\)](#)
- [Major in Exercise Science \(MJ0260\)](#)

Awards

Award	Official abbreviation
Bachelor of Exercise Physiology and Rehabilitation	B ExPhysiol&Rehab

Honours

High performing students may be eligible for enrolment in the Bachelor of Sports Studies (Honours).

Alternative exits

In order for the Diploma of Health Studies to be awarded the student must have:

- completed 24 credit points with at least 12 credit points at Level 1
- completed a minimum of 12 credit points at UC and
- obtained a minimum of 12 credit points in any of the health disciplines.

In order for the Associate Degree in Health Studies to be awarded the student must have:

- completed 48 credit points with at least 12 credit points at Level 1 and 12 credit points at Level 2
- completed a minimum of 24 credit points at UC and
- obtained a minimum of 24 credit points in any of the health disciplines.

Students may exit early with the Bachelor of Sport and Exercise Science if they have passed 72 credit points and meet the course completion requirements.
