About this course

Unlock the potential in top sport

The Double Bachelor of Science in Psychology and Bachelor of Sport and Exercise Science offers a unique blend of skills which will help you excel in either profession.

Science in psychology is the study of human behaviour, thoughts and feelings while sport and exercise science is the study of the methods and applications of sub-discipline of human movement studies and how they interact. The combination of these two degrees opens up a world of possibilities and professional opportunities.

The National body that accredits psychology training, the Australian Psychological Society (APS) has formed a College of Sport

Psychologists (COSP) as one of its specialisations. This step in some ways reflects the interest and significance sports and exercise now have in the profession of psychology.

So become part of the emerging sport psychology industry or become a psychologist with two more years of study in the Master of Clinical Psychology.

Combine the Bachelor of Science in Psychology with a Bachelor of Sport and Exercise Science at UC to:

- work toward a career in sport psychology
- gain a recognised understanding of sport science and psychology
- be ready to maximise athletic performances at the elite level
- gain strong knowledge of the theory and practice of coaching.

Career opportunities

The sport and exercise science qualification means you can gain employment in:

- coaching children and adults
- shaping coaching resources and facilities
- developing sport in Commonwealth and State Government Departments of sport and recreation
- government bodies, working as a sport development officer.

The University of Canberra is committed to building a strong and sustainable Aboriginal and Torres Strait Islander sporting industry and health workforce. If you are an Aboriginal and Torres Strait Islander person looking to study this course, please contact Rachel Harrigan, Faculty of Health General Manager, (02) 6201 2608.

Professional accreditation

This course is accredited by the Australian Psychological Accreditation Council (APAC) and approved by the Australian Psychological Society (APS).

Graduates may be eligible to apply for accreditation as an Accredited Exercise Scientist with Exercise and Sports Science Australia pending professional registration. Graduates may also be eligible to apply for membership with Sports Medicine Australia. A number of industry qualifications are also available to students on completion of appropriate units.

Admission requirements

Normal requirements for admission to an undergraduate degree course.

Additional admission requirements

Refer to individual courses.

Assumed knowledge

Refer to individual courses.

Periods course is open for new admissions

This course is not open for new admissions.

Course requirements

Bachelor of Science in Psychology/Bachelor of Sport and Exercise Science (275JA) | 96 credit points

Required - 96 credit points as follows

[Expand All](#) | [Collapse All](#)

Psychology - 42 credit points as follows

Major in Psychological Science (MJ0102) | 24 credit points

Required - Must pass 21 credit points as follows

- Psychology 102 (4310) | 3 credit points – Level 1
- Experimental Psychology (7118) | 3 credit points – Level 2
- Personality and Individual Differences (7122) | 3 credit points – Level 2
- Cognitive Psychology (7123) | 3 credit points – Level 3
- Social Psychology (7125) | 3 credit points – Level 3
- Survey Research and Design in Psychology (7126) | 3 credit points – Level 3
- Psychopathology (7128) | 3 credit points – Level 3

Restricted Choice - Must pass 3 credit points from the following

- Psychology 101 (4309) | 3 credit points – Level 1
- Understanding People and Behaviour (11399) | 3 credit points – Level 1

Note:

- From Semester 1 2019 11399 Understanding People and Behaviour replaces 4309 Psychology 101. Students who have passed 4309 do not need to complete the new unit.

Required Units - Must pass 18 credit points as follows

Introduction to Psychological Research (6611) | 3 credit points – Level 1

Physiological Psychology (7120) | 3 credit points – Level 2

Developmental Psychology (7121) | 3 credit points – Level 2

Motivation and Emotion (7124) | 3 credit points – Level 3

Learning (7127) | 3 credit points – Level 2

Sport and Exercise Psychology (10012) | 3 credit points – Level 1

Sport and Exercise Science - 54 credit points as follows

Major in Human Movement (MJ0261) | 21 credit points

Required - Must pass 21 credit points as follows

Biomechanics 1 (6834) | 3 credit points – Level 2

Biomechanics 2 (6835) | 3 credit points – Level 3

Performance Analysis in Sport (8390) | 3 credit points – Level 3

Motor Control and Skill Acquisition (8913) | 3 credit points – Level 2

Regional Anatomy and Physiology (9808) | 3 credit points – Level 1

Exercise Programming and Prescription 1 (9811) | 3 credit points – Level 1

Exercise Programming and Prescription 2 (9812) | 3 credit points – Level 2

Required Units - Must pass 33 credit points as follows

Systemic Anatomy and Physiology (6529) | 3 credit points – Level 1

Sport and Performance Psychology (7224) | 3 credit points – Level 2

Human Growth and Development (8338) | 3 credit points – Level 1

Health, Disease and Exercise (8340) | 3 credit points – Level 2

Physiology of Exercise 1 (8391) | 3 credit points – Level 2

Physiology of Exercise 2 (8392) | 3 credit points – Level 3

Introductory Nutrition (9280) | 3 credit points – Level 1

Foundations of Professional Planning (9799) | 3 credit points – Level 1

Research and Professional Practice Part A (6cp) (9813) | 0 credit points – Level 3

Research and Professional Practice Part B (9814) | 9 credit points – Level 3

In addition to course requirements, in order to successfully complete your course you must meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course
