#### Fees

2021: Indicative annual CSP student contribution amount \$7,950

Indicative annual tuition fee \$30,700

2022: Indicative annual CSP student contribution amount \$8,021

Indicative annual tuition fee \$31,500

#### Disclaimer:

Fees Disclaimer

The fees shown are the indicative annual fee rates for the course, based on a standard full-time enrolment of 24 credit points across a year. Fees are assessed at unit level, according to their field of education and credit point value.

If you are offered a Commonwealth Supported Place (CSP) for this course, you will be liable for a Student Contribution Amount instead of domestic tuition fees.

You won't need to submit a separate application for a CSP – you will automatically be assessed for eligibility when you apply for admission to the course. Information on Commonwealth Supported Places, HECS-HELP and how fees are calculated can be found [here](#).

## About this course

The Master of Optometry is a two-year program. It will provide students with advanced knowledge, clinical skills and professional attributes related to the optometry profession.

The course will incorporate the latest research and technology, as it will be developed by a group comprising academics, practitioners and representatives from international optometry companies and independents.

## Professional accreditation

This course is accredited with the Optometry Council of Australia and New Zealand (OCANZ). Successful completion of both the Bachelor of Vision Science AND the Master of Optometry course at the University of Canberra will allow graduates the chance to apply for registration with the Optometry Board of Australia to practice as an optometrist.

## Admission requirements

The Master of Optometry (374JA) is only open to students who have completed the Bachelor of Vision Science (372JA) at the University of Canberra.

Applicants who are studying a Bachelor of Vision Science from another institution are encouraged to apply for admission into the Bachelor of Vision Science (372JA) at UC to become eligible for the Masters. These applicants are eligible to apply for consideration of credit towards a UC Bachelor of Vision Science (in accordance with UC's credit policy and procedure) to reduce the duration of this course.

## Additional admission requirements

The clinical practice placements are an essential component of the program and are assessed. Students may be required to complete these clinical practice placements outside of teaching time. Prior to commencing clinical practice, all students need to present a complete immunisation schedule, and First Aid certificates including CPR, as a requirement of the ACT and NSW health departments. All students are required to undergo a 'working with vulnerable people' check, an Australian Federal Police Record Check prior to undertaking clinical experience in the ACT, and a NSW Police check before undertaking practice in NSW.

## Assumed knowledge

None.

## Periods course is open for new admissions

Year	Location	Teaching period	Teaching start date	Domestic	International
2024	UC - Canberra, Bruce	Semester 1	05 February 2024	✓	✓

## Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#). Credit is not permitted towards completion of a graduate certificate.

### Course duration

Standard two years.

## Learning outcomes

Learning outcomes	Related graduate attributes
<p>Graduates of the Master of Optometry will:</p> <p>1. Be able to demonstrate the requisite knowledge for independent practice and autonomous prescribing in ocular therapeutics</p>	<p>UC graduates are professional:</p> <p>Employ up-to-date and relevant knowledge and skills.</p> <p>UC graduates are lifelong learners:</p> <p>Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development.</p>
<p>2. Be able to demonstrate the requisite skills for independent practice and autonomous prescribing in ocular therapeutics</p>	<p>UC graduates are professional:</p>

Employ up-to-date and relevant knowledge and skills.

UC graduates are global citizens:

Make creative use of technology in their learning and professional lives.

UC graduates are lifelong learners:

Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; and

Evaluate and adopt new technology.

3. Be able to demonstrate the professional attributes necessary for independent practice and autonomous prescribing in ocular therapeutics

UC graduates are professional:

Communicate effectively; and

Take pride in their professional and personal integrity.

UC graduates are global citizens:

Communicate effectively in diverse cultural and social settings; and

Behave ethically and sustainably in their professional and personal lives.

UC graduates are lifelong learners:

Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development;

Be self-aware; and

Adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas.

4. Have the expertise and skills to critique, synthesise and apply evidence from research and science to inform optometric practice

UC graduates are professional:

Use creativity, critical thinking, analysis and research skills to solve theoretical and real-world problems; and

Display initiative and drive, and use their organisational skills to plan and manage their workload.

UC graduates are global citizens:

Think globally about issues in their profession;

Make creative use of technology in their learning and professional lives.

UC graduates are lifelong learners:

Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development;

Adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas; and

Evaluate and adopt new technology.

5. Demonstrate an awareness of the inter-professional nature of the health profession and its diverse cultural and social setting

UC graduates are professional:

Communicate effectively;

Work collaboratively as part of a team, negotiate, and resolve conflict; and

Take pride in their professional and personal integrity.

UC graduates are global citizens:

Think globally about issues in their profession;

Adopt an informed and balanced approach across professional and international boundaries;

Understand issues in their profession from the perspective of other cultures;

Communicate effectively in diverse cultural and social settings; and

Behave ethically and sustainably in their professional and personal lives.

UC graduates are lifelong learners:

Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; and

Be self-aware.

## Placements requirements

Students will be expected to purchase some specialist equipment prior to going out on placement during their studies for the Master of Optometry. There may be some additional costs associated with your clinical placements. Further details will be provided during your enrolment. Students should expect to spend around \$5,000 on equipment. Life expectancy of the equipment is around 15 to 20 years.
