Annual fee rates

The fees shown are the annual fee rates for the course. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. Information on how fees are calculated can be found [here](#).

About this course

The gateway to your career as a clinical psychologist

Welcome to the UC Master of Clinical Psychology course, an intensive two-year academic journey that will provide you with rigorous professional training and equip you with the skills and knowledge to become a registered clinical psychologist.

Through a mix of advanced coursework, supervised practicum placements, and a research project on a topic of clinical relevance, you will acquire in-depth assessment, evaluation, and intervention skills readying you to work as a practicing psychologist.

On enrolment, you will be registered as a provisional psychologist and then go on to complete up to 1000 hours of supervised practical placements. The first two placements will be in the University's student-led Health Clinic, where you will gain exposure to inter-professional practice with additional training opportunities occurring in workplace settings, always under the support and supervision of experienced academic mentors.

Study a Master of Clinical Psychology at UC and you will:

- use your knowledge of psychology and mental health to critically assess, diagnose, develop case formulations, treat and prevent

psychological problems and mental health issues across the lifespan

- understand your profession concerning the unique role of clinical psychologists in providing evidence-based psychological services, including assessment, diagnosis, treatment, research and consultancy services across diverse settings
- understand psychopathology, psychopharmacology and psychological medicine, and neurological issues relevant to mental health presentations, diagnostic systems, health psychology and behavioural medicine
- transform research and evaluation findings into policy, applied knowledge, and improved treatments
- provide competent expert oral and written reports to various stakeholders on psychological matters for health, medical, medico-legal, and forensic purposes
- competently work within a cross-cultural context
- practice with children, adolescents, adults and older persons in a manner relevant to Clinical Psychology
- conduct high-level advanced independent research on a topic of clinical relevance.

Work Integrated Learning

During this course, you will undertake four practical placements, totaling 1000 hours. The first two placements will be in the student-led clinic on campus and take place in a range of different settings, including working with children, adolescents, adults, and older people, and in a variety of organisations. In each situation, you will develop your competencies as a clinical psychologist by working with clients under supervision.

Career opportunities

Career opportunities for Clinical Psychologists are considerable, and UC graduates are in high demand across a wide range of services within the public and private sectors. For example:

- Private practice supporting members of the public
- Health departments, hospitals, and community practices
- National, state or local government or non-government organisations
- Welfare agencies, educational institutions, defense, justice and community services.

Course-specific information

To be eligible for consideration for the UC Master of Clinical Psychology program, you must be able to provide evidence of completing a four-year sequence in psychology within the last ten years – with accreditation by the Australian Psychology Accreditation Council (APAC), or equivalency as determined by the Australian Psychological Society (APS).

This requirement is necessary to ensure eligibility for provisional registration with the Australian Health Practitioners Regulation Agency (AHPRA), and Associate Membership of the APS and the Australian Clinical Psychology Association (ACPA).

Shortlisted applicants will be required to attend an on-campus interview which will help determine your eligibility.

Provisional registration with AHPRA will also require a federal police clearance and all relevant immunisations must be up to date before participating in any work placements.

Some placement organisations may also require a current Working with Vulnerable People clearance.

Professional accreditation

The Master of Clinical Psychology (MCP) provides the 5th and 6th years of APAC accredited postgraduate training required to be eligible for general registration as a psychologist and entry into the registrar program for Clinical endorsement. The program also meets the requirements for membership of the Australian Psychological Society and Associate Membership of the APS College of Clinical Psychologists.

Admission requirements

Please be advised that domestic applications open on the 1st September and close on the 31st October each year for the following year.

Domestic applicants must apply through the Universities Admissions Centre (UAC) <http://www.uac.edu.au/postgraduate/> Referee reports must be submitted through the Australian Psychology Post-graduate Program Reference Request System <https://www.psychologyreference.org/> Applicants must ensure they share the reference with the University of Canberra. If the reference is not shared we cannot access the referee report and the application will be deemed incomplete and not be processed further.

Applicants must meet all of the following criteria:

1. A completed four year sequence in psychology accredited by APAC and completed within the last 10 years
2. A GPA of 6.0 or higher in fourth year psychology honours or graduate diploma course

When no GPA is given for the honours year:

- UC graduates - hold upper second class psychology honours (of at least 80%)
- Non-UC graduates - hold first class psychology honours (of at least 85%)

International applications are accepted at any time. Please refer to the key dates <https://www.canberra.edu.au/future-students/apply-to-uc/key-dates> for further information.

Additional admission requirements

Applicants must also provide:

- a current Curriculum Vitae (CV)
- proof of eligibility for registration as a provisional psychologist with the Psychology Board of Australia, and
- two referee reports submitted through the Australian Psychology Postgraduate Program Reference Request System <https://www.psychologyreference.org/>

Shortlisted applicants (domestic and international) will be required to attend an interview in which their suitability for clinical practice will be assessed. In person interviews are preferred, but in the event that this is not possible, video link can be used. Applicants are expected to attend the interview, whether in person or video link, at the date and time offered to them, no alternative arrangements or exceptions will be made.

NOTE

Above requirements are the minimum standard and not negotiable. Entry is competitive and places limited. Shortlisting for interview is determined against the applicant's academically ranked place in the applicant list, and the referee reports. The thresholds for interview considerations vary each year in response to characteristics of the applicant pool. It is emphasised that meeting the minimum entrance requirements does not of itself guarantee an interview. Please note that it is the applicant's responsibility to ensure that UAC and UC have the correct and most current information against which applications are assessed.

Periods course is open for new admissions

Year	Location	Teaching period	Teaching start date	Domestic	International
2023	UC - Canberra, Bruce	Trimester 1	03 January 2023	✓	✓
2024	UC - Canberra, Bruce	Trimester 1	08 January 2024	✓	✓
