## About this course

### Fast track your way into a Physiotherapy Career

If you already possess a health-related degree but now wish to move into a career in physiotherapy, then the UC Master of Physiotherapy course will help you transition into a new pathway fast – and with confidence.

This 2-year, full time course will help you leverage your existing qualification and combine it with a comprehensive integrated learning schedule to ensure that you meet both Australian Physiotherapy Association requirements, and your own career objectives in the most expediate way possible.

This course is unique to UC and has been specifically designed to help you not only graduate faster, but also enter the physiotherapy industry with a highly competitive edge.

So if you're a health graduate that has been considering pursuing a career path more in line with your passion or purpose - then look no further than the UC Master of Physiotherapy course – and take your career to another level – fast.

## Study a Master of Physiotherapy at UC and you will:

- develop knowledge of the structure and function of the human body
- learn to read, critique, evaluate and apply evidence from research and science into the practices of health care and health services
- enhance your communication skills in listening, speaking, explaining, and teaching
- develop detailed knowledge of normal function and development of the musculoskeletal, cardiothoracic, and neurological systems
- apply your knowledge and skill to assess, prevent, and treat developmental and degenerative diseases of the musculoskeletal, cardiothoracic, and neurological systems
- understand and apply the professional ethics, responsibilities, values, and standards for the practice of physiotherapy
- develop excellent clinical analytical and reasoning skills.

2

## Work Integrated Learning (WIL)

This course offers a high volume of work integrated learning and the opportunity to gain clinical practice experience using theoretical and practical components of your studies.

Comprising of five, five-week placements, these hands-on learning opportunities will cover a wide range of areas such as acute care units, rehabilitation centres, neurological units, residential care facilities, paediatric units, and aged care facilities. Placements are only provided on a full-time basis and will require interstate travel. Accommodation and transport costs are the student's responsibility. For further information on WIL please visit <https://www.canberra.edu.au/current-students/canberra-students/work-integrated-learning>

Also, patients with a variety of medical issues such as spinal cord injuries and Parkinson's disease will also regularly visit to discuss their conditions, and you'll also have the chance to work with high-performance athletes looking to improve their physical and personal objectives.

## Career opportunities

The Master of Physiotherapy course at UC is fully accredited by the Australian Physiotherapy Council. Graduates are eligible for registration as a Physiotherapist by the Australian Health Practitioner Regulation Agency.

Potential careers available for UC Master of Physiotherapy students include:

- musculoskeletal
- neurological
- cardiothoracic
- sports
- women's health
- paediatrics
- oncology
- emergency
- aged care
- burns units and more
- private industry and the government sector.

## Course-specific information

All students are required to undergo a police record check and present current immunisation records prior undertaking clinical practice placement in the community.

## Professional accreditation

The course has been accredited by the Australian Physiotherapy Council. Graduates of the Master of Physiotherapy are eligible for registration

as a Physiotherapist by the Australian Health Practitioner Regulation Agency. For professional Physiotherapy registration with APHRA, IELTS is required for anyone who did not complete high school in Australia, England, Ireland, New Zealand, USA, Canada or South Africa, as opposed to the University requirements where IELTS is only required for those who have not studied in an English speaking country.

## Admission requirements

Admission to this course is competitive. Applications will be assessed on the basis of academic merit and the number of available places. Please be advised that domestic applications open on the 1st September and close on the 30th April each year. Domestic applicants must apply through the Universities Admissions Centre (UAC) (<http://www.uac.edu.au/postgraduate/>). Offers for semester 2 2021 intake will be released on 27 May 2021, 1 July 2021 and 22 July 2021.

International applications are accepted at any time. Please refer to the key dates (<https://www.canberra.edu.au/future-students/apply-to-uc/key-dates>) for further information.

Applicants must meet all of the following criteria:

- A) a completed bachelor degree in a health science discipline\* with a credit or higher average, and
- B) degree level studies in musculoskeletal anatomy, advanced functional anatomy, physiology of exercise and biomechanics.

It is the responsibility of the applicant to provide evidence that they meet the prerequisite degree level study requirements outlined above. You must upload a copy of the unit outlines/course syllabi of the relevant units only from your previous studies that show you meet these requirements with your application.

Applicants who do not meet the prerequisite requirements are encouraged to apply for entry into the Graduate Certificate of Human Movement 868AA ([https://www.canberra.edu.au/coursesandunits/course?course\\_cd=868AA&version\\_number=3&title=Graduate-Certificate-in-Human-Movement-Science&location=BRUCE&rank=DDD&faculty=Faculty-of-Health&year=2020](https://www.canberra.edu.au/coursesandunits/course?course_cd=868AA&version_number=3&title=Graduate-Certificate-in-Human-Movement-Science&location=BRUCE&rank=DDD&faculty=Faculty-of-Health&year=2020))

\* Health science disciplines include exercise physiology, exercise science, exercise and sports science, medical science, biomedical science, health science, human movement, physiotherapy, physical therapy, applied science, human biology, medicine, rehabilitation science, human nutrition, occupational therapy.

## Additional admission requirements

All students in the course are required complete clinical practice placements in blocks of time, often outside of teaching time. These clinical practice placements are essential to the program and are assessed.

Prior to commencing clinical practice, all students need to present a complete immunisation schedule, and First Aid certificates including CPR, as a requirement of the ACT and NSW health departments.

All students are required to undergo an Australian Federal Police record check prior to undertaking clinical experience in the ACT, and a NSW Police check before undertaking practice in NSW.

## Assumed knowledge

Musculoskeletal Anatomy, Advanced Functional Anatomy, Physiology of Exercise and Biomechanics.

## Periods course is open for new admissions

Year	Location	Teaching period	Teaching start date	Domestic	International
2021	UC - Canberra, Bruce	Semester 2	02 August 2021	✓	✓

2022	UC - Canberra, Bruce	Semester 2	01 August 2022	✓	✓
2023	UC - Canberra, Bruce	Semester 2	31 July 2023	✓	✓

## Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#). Credit is not permitted towards completion of a graduate certificate.

## Course requirements

### Master of Physiotherapy (768AA) | 48 credit points

Required - Must pass 48 credit points as follows

- Cardiothoracic Interventions 1 PG (6447) | 3 credit points – Level P
- Musculoskeletal Interventions 1 PG (6449) | 3 credit points – Level P
- Neurological Interventions 1 PG (6452) | 3 credit points – Level P
- Musculoskeletal Interventions 2 PG (6453) | 3 credit points – Level P
- Cardiothoracic Interventions 2 PG (6455) | 3 credit points – Level P
- Neurological Interventions 2 PG (6456) | 3 credit points – Level P
- Research Planning PG (6486) | 3 credit points – Level P
- Epidemiology and Principles of Research PG (9594) | 3 credit points – Level P
- Orthopaedic Physiotherapy PG (11505) | 3 credit points – Level P
- Physiotherapy Across the Lifespan PG (11551) | 3 credit points – Level P
- Essential Physiotherapy Skills PG (11552) | 3 credit points – Level P
- Applied Physiotherapy Skills PG (11553) | 3 credit points – Level P
- Clinical Physiotherapy 1 G (11554) | 3 credit points – Level G
- Clinical Physiotherapy 2 G (11555) | 3 credit points – Level G
- Clinical Physiotherapy 3 G (11556) | 3 credit points – Level G
- Clinical Physiotherapy 4 G (11557) | 3 credit points – Level G

In addition to course requirements, in order to successfully complete your course you may need to meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course

Clinical Physiotherapy 3 G (11556)  
Clinical Physiotherapy 4 G (11557)

#### Summer Semester

Clinical Physiotherapy 1 G (11554)

## Course information

### Course duration

Standard four semesters full-time (not available part-time). Maximum eight semesters.

### Learning outcomes

Learning outcomes	Related graduate attributes
Implement professionalism in the practice of physiotherapy, including insight into scope of practice and the ethics, responsibilities, values and conduct required in a broad range of contexts, including maintenance of self-care as required.	<p>UC graduates are professional: Communicate effectively; work collaboratively as part of a team, negotiate, and resolve conflict; display initiative and drive, and use their organisational skills to plan and manage their workload; and take pride in their professional and personal integrity.</p> <p>UC graduates are global citizens: Think globally about issues in their profession; adopt an informed and balanced approach across professional and international boundaries; communicate effectively in diverse cultural and social settings; and behave ethically and sustainably in their professional and personal lives.</p> <p>UC graduates are lifelong learners: Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; be self-aware; and adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas.</p>

Implement well-developed communication skills, including culturally-responsive interpersonal, written and electronic communication with patients, families and carers, and other health professionals, in clinical and wider interprofessional

UC graduates are professional: Communicate effectively; work collaboratively as part of a team, negotiate, and resolve conflict; display initiative and drive, and use their organisational skills to plan and manage

contexts, including constructive conflict resolution.

their workload; and take pride in their professional and personal integrity.

UC graduates are global citizens: Think globally about issues in their profession; adopt an informed and balanced approach across professional and international boundaries; understand issues in their profession from the perspective of other cultures; communicate effectively in diverse cultural and social settings; and behave ethically and sustainably in their professional and personal lives.

UC graduates are lifelong learners: Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; be self-aware; and adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas.

Integrate an in-depth understanding of the structure and function of the human body to the relevant practice of physiotherapy.

UC graduates are professional: Employ up-to-date and relevant knowledge and skills.

Apply knowledge of the degenerative and disease processes affecting the human body (across the lifespan and in different patient groups) in the patient-centred practice of clinical physiotherapy.

UC graduates are professional: Employ up-to-date and relevant knowledge and skills; and communicate effectively.

UC graduates are global citizens: Adopt an informed and balanced approach across professional and international boundaries; and make creative use of technology in their learning and professional lives.

Facilitate safe and effective patient-centred assessment, therapeutic intervention, and evaluation using evidence-based tools and outcome measures relevant to the practice of physiotherapy, incorporating patient's goals.

UC graduates are professional: Employ up-to-date and relevant knowledge and skills; and display initiative and drive, and use their organisational skills to plan and manage their workload.

UC graduates are global citizens: Adopt an informed and balanced approach across professional and international boundaries; and make creative use of technology in their learning and professional lives.

UC graduates are lifelong learners: Reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas; and evaluate and adopt new technology.

Critique, synthesise and apply evidence from research, quality improvement and other sources as they inform physiotherapy and health care practice, with readiness to change practice and teach others as the evidence base evolves in the future.

UC graduates are professional: Employ up-to-date and relevant knowledge and skills; and use creativity, critical thinking, analysis and research skills to solve theoretical and real-world problems.

UC graduates are global citizens: Make creative use of technology in their

learning and professional lives.

UC graduates are lifelong learners: Evaluate and adopt new technology.

Execute and illustrate expertise and skills in research to test established theories against a body of knowledge in the areas of growth and development, movement dysfunction, pathology or degeneration relevant to the practice of physiotherapy.

UC graduates are professional: Employ up-to-date and relevant knowledge and skills.

UC graduates are global citizens: Think globally about issues in their profession;

adopt an informed and balanced approach across professional and international boundaries; and make creative use of technology in their learning and professional lives.

UC graduates are lifelong learners: Evaluate and adopt new technology.

## Placements requirements

This course requires students to meet compulsory placement requirements prior to undertaking professional placement (Work-Integrated Learning) in a clinical or professional setting. For information on what these requirements are and how to meet these requirements, please visit [www.canberra.edu.au/placement](http://www.canberra.edu.au/placement)

## Awards

Award	Official abbreviation
Master of Physiotherapy	M Physio

## Alternative exits

Alternative exit award - Graduate Certificate in Health Studies: Students may exit early with this award if they have passed 12 credit points from the Master course. Alternative exit award - Graduate Diploma in Health Studies: Students may exit early with this award if they have passed 24 credit points from the Master course, with at least 12 credit points at Postgraduate Level.
