About this course

Grow your nutrition career from the inside out

If you're serious about nutrition and influencing the dietary needs of an ever-expanding and aging population, then the UC Master of Nutrition course will give you the necessary skills and qualifications to have your ideas influence change at the local and national level.

As part of this course, you'll use your existing knowledge and experience to plan and execute a research project of your choice and then participate in 20 weeks of full-time workplace education to help bring this project to life - all with full support and encouragement from academic and industry experts and mentors.

Depending on your research topic, this placement will take place in hospitals, community centers or food service departments - all settings which offer a unique opportunity to gain frontline experience and network with industry professionals.

Also, the UC Master of Nutrition and Dietetics course is the only course in Australia which also offers all graduating students an additional 4-week internship where you be actively encouraged to broaden your networks and explore employment opportunities at the same time.

It's time to take control of your career direction. It's time to register your interest in the UC Master of Nutrition and Dietetics course now.

Study a Master of Nutrition and Dietetics AT UC and you will:

- develop additional knowledge, skills, and attitude to examine health within the framework of nutrition
- understand the application of nutrition in a socio-cultural, pathophysiological and biochemical health context
- cultivate critical thinking skills, problem-solving skills and apply evidence-based approaches to address a nutrition-related health issue
- demonstrate expert communication skills to transfer complex nutrition knowledge to a variety of audience
- develop autonomy and self-direction in progressing your learning and professional development
- gain the necessary scientific background and specific knowledge and skills to address concepts and opinions relating to human nutrition
- identify the links between nutrition, health, and disease at different life stages
- address ways to improve the delivery of nutritional information.

Work Integrated Learning

This course also includes up to 24 weeks of full-time workplace education in a range of settings including the public health sector, hospitals, food services or in the community.

All work completed during this placement will count towards your end of course assessment and is part of the UC Faculty of Health's commitment to helping students gain valuable hands-on experience; and build life-long industry contacts and relationships while they are studying at UC.

Career opportunities

A UC Master of Nutrition and Dietetics graduate is recognised as possessing the necessary skills, experience and qualifications to become an Accredited Practising Dietitian. This accreditation is also accepted globally and opens doors to a range of jobs in a variety of industries including:

- hospitals
- community health centers
- private practice
- government departments
- the food industry
- media
- education
- research.

Course-specific information

Prior to undertaking any clinical placement students will be required to:

- undertake a National Police Check
- obtain a Working with Vulnerable People registration
- provide your immunisation history
- have a qualification in First Aid including CPR.

Professional accreditation

This course has been accredited by Dietitians Australia.

Admission requirements

Applicants must meet all of the following criteria:

- A) a completed bachelor degree in human nutrition
- B) two degree level units in chemistry
- C) four degree level units in human biology and human physiology
- D) two second year degree level units in biochemistry
- E) four degree level units in food and nutrition science

Applicants must also provide a written statement of less than 500 words on why you believe you can contribute to the profession of dietetics. Citing references is not required. This provides the opportunity to inform the selection committee of your reasons for undertaking this course, to include any work experience and skills, and to include other relevant factors. The university reserves the right to seek further information relating to your letter of application.

Additional admission requirements

Limited Commonwealth-supported places (CSPs) are available for this course and will be awarded on academic merit. To be considered for a CSP, please submit your application by 31 October 2024. Eligible applicants will be notified from 15 November 2024. The University will continue to issue fee-paying (FEE) offers until this date, offers for any eligible CSP applicants will be updated accordingly.

Assumed knowledge

None.
