## About this course

### Understand the 'why' at a whole new level

Discover the science behind how and why people think, feel, and behave the way they do with the UC Bachelor of Science in Psychology. In this course, you will learn how to use science and evidence-based practice to influence human behaviour in a wide range of settings. In only three years, you will learn the foundations of psychology and gain the knowledge, understanding and the contacts to go on to explore a range of career and study opportunities once you graduate.

This course is especially advantageous to those studying double-degrees in law, business, and sport & exercise science – alternatively you can choose to do a secondary major in many areas, including counselling, health science, and sports.

UC also offers extensive Work Integrated Learning opportunities including placements in local, national and international organisations - if available.

This is a fully accredited course by the Australian Psychology Accreditation Council opens opportunities for further study in psychology at honours and masters levels.

### Study a Bachelor of Science in Psychology at UC and you will:

- be introduced to the latest theory, practice, and research in a diverse range of areas of psychology including developmental, physiological, social, and cognitive
- focus on applied psychology and research
- be able to choose elective units in exercise psychology, health psychology, and forensic psychology
- gain transferable skills that are highly sought after by a diverse range of employers including critical analysis, communication, problem solving, teamwork, and research
- graduate from a fully accredited course and be eligible for entry into professional postgraduate training courses in clinical and other areas of psychology

### Work Integrated Learning (WIL)

WIL is an integral component of the Bachelor of Science in Psychology journey as it gives students the opportunity to gain valuable hands-on experience and build professional relationships through real work, or work-like placements.

This, in turn, enhances each student's confidence, employability and reinforces our commitment to preparing professional and highly employable graduates with the right mix of skills, knowledge, and experience.

In this course, you will undertake a minimum of 120 hours of practical education where you will work with, and alongside experienced and skilled industry mentors within a local, national or international working environment.

### Career opportunities

A UC Bachelor of Science in Psychology degree opens many doors and can lead to a diverse range of study and career options in any of the following areas:

- Psychologist (subject to further studies)

- Human resources
- Policy and research
- Health and welfare
- Public Relations
- Media
- Marketing and advertising
- Disability support
- Community health
- Counselling

## Course-specific information

The Australian Psychology Accreditation Council fully accredits the Bachelor of Science in Psychology. Registration as a psychologist requires further study beyond the bachelor's degree. There are currently three pathways to registration following completion of the bachelor's degree:

- complete an accredited honours degree (or equivalent) followed by two-year's supervised clinical experience
- complete an accredited honours degree (or equivalent) followed by an accredited one-year professional postgraduate diploma, followed by one-year's supervised clinical experience
- complete an accredited honours degree (or equivalent) followed by a two-year's Master of Clinical Psychology course.

## Professional accreditation

Accredited by the Australian Psychological Accreditation Council (APAC) and approved by the Australian Psychological Society (APS).

## Admission requirements

Admission to this course is based on an entrance rank. A rank can be achieved by the following means:

- Year 12 ATAR
- other Australian Qualification
- work experience
- overseas qualification

We also offer a number of entry initiatives that give you the opportunity to gain entry to the University via alternate pathway programs and admissions schemes.

More information is available on our Alternative Entry page: <http://www.canberra.edu.au/future-students/applications/apply-now/alternative-entry>

## Periods course is open for new admissions

This course is not open for new admissions.

## Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#). Credit is not permitted towards completion of a graduate certificate.

## Course requirements
