## About this course

This program is for students of high ability who aim to make careers in legal areas associated with computing, gaining full professional status in both the legal and computing fields. The program contains the Bachelor of Laws (LLB) course as its second degree-equivalent section. The Bachelor of Laws degree may be awarded with honours. The BBI and LLB courses will help you develop knowledge of information systems, information technology and their integration with law and business. With your knowledge of how to analyse and design systems, and how to support business endeavours, your skills and knowledge will be in demand from employers. To enable completion in a minimum of five years, time savings are arranged mainly by taking LLB units as the elective components of the existing Bachelor of Business Informatics (BBI) course. It is important, therefore, to follow closely the study program arranged by the course convener to achieve the minimum time. A single degree may be taken out when at least 72 credit points have been attained and the requirements of that degree have been met.

## Professional accreditation

The BBI is fully accredited with the Australian Computer Society and the Association of Information Systems. This program is recognised by the Supreme Court of the Australian Capital Territory and the State of NSW. Through mutual recognition, UC's degree may serve as the basis for admission in all Australian jurisdictions. Through a program offered in conjunction with the College of Law, students may (in their final year of the Bachelor of Laws at UC) begin their Graduate Diploma in Legal Practice course that qualifies for them for admission. Arrangements exist for students to articulate into programs leading to admission in the UK and the United States.

## Admission requirements

Attainment of the published ATAR or its equivalent.

## Additional admission requirements

Refer to individual courses.

## Assumed knowledge

Refer to individual courses.

## Periods course is open for new admissions

This course is not open for new admissions.

## Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#). Credit is not permitted towards completion of a graduate certificate.

## Course requirements

# Bachelor of Business Informatics/Bachelor of Laws (808AA) | 120 credit points

Required - 93 credit points as follows

[Expand All](#) | [Collapse All](#)
