About this course

Make your mark on our country's economic future

Gain a qualification in applied economics that enables you to be ready for a wide variety of positions. You'll develop a deeper understanding of the workings of the economy including; the context in which households, individuals and firms interact in the market; government's intervention in the market; and economic theory and its applications in a wide array of situations. The program offers a high degree of flexibility through the ability to choose an open major from any area of the university to suit your individual interests.

Study a Bachelor of Applied Economics at UC and you will:

- master economic theory and its applications in the real world
- confidently analyze economic data and provide advice to stakeholders
- be equipped to inform public policy
- develop a deeper understanding of how consumers, producers and companies interact with the market and react to government intervention
- find employment in various industries and levels of federal and state government institutions including Department of Treasury, Australian Bureau of Statistics, Australian Taxation Office, Reserve Bank and Productivity Commission.

Career Opportunities

- Business Analyst

- Economic Analyst
- Economist
- Policy Advisor
- Regulatory Analyst

Course specific information

You can study a Bachelor of Applied Economics as part of a double degree. Team it with a Bachelor of Commerce, Management or Politics & International Relations (4 years), or the Bachelor of Laws (5 years).

Professional accreditation

None.

Admission requirements

Normal UC requirements for admission to an undergraduate course.
