About this course

The Graduate Diploma of Building & Construction Information Management (GD-BCIM) aims to develop the extensive body of knowledge and professional practice in modelling, exchanging, maintaining, implementing and managing building and construction information. The course is designed to assist architects, building practitioners, construction engineers and project managers with consolidating the fundamental theories of BIM, technology-oriented BIM training, strengthening the modelling, management and simulation and enhancing the critical thinking and future competencies required for digital built environment. It will build on the existing knowledge and skills to deliver a comprehensive, flexible, robust and practice-led advanced BIM pedagogy.

Professional accreditation

None.

Admission requirements

Completed tertiary undergraduate qualification in a relevant discipline (architecture, built environment, building and construction engineering and management, project management and civil engineering disciplines), as approved by the University.

The University of Canberra is a strong supporter of lifelong education and recognises that not everyone comes into university through traditional pathways. For example, we know that often people with significant industry experience are excellent students who gain a lot

from completing our courses.

If you do not hold a Bachelor degree in a relevant discipline, we may consider your previous related work experience through Recognition of Prior Learning (RPL). RPL enables admissions based on learning derived from work experience or a combination of qualification and work experience. The amount of work experience required will depend on your previous qualifications, ranging from 4 years (for example, if you have a TAFE advanced diploma) to 10 years if your highest qualification is a Year 12 certificate.

In general, the following documentation is required as part of the RPL assessment. Please contact FAD.Student@canberra.edu.au if you'd like to speak to someone about your eligibility.

- an employer's letter validating work experience
- examples of work, training certificates and course outlines
- documented professional qualifications.

Additional admission requirements

The applicants for the flexible and fully online modes of the program are required to have a functional computer to apply BIM software packages and tools.

Assumed knowledge

None.

Periods course is open for new admissions

| Year | Location | Teaching period | Teaching start date | Domestic | International |
|------|-----------------|-----------------|---------------------|----------|---------------|
| 2025 | Bruce, Canberra | Semester 1 | 03 February 2025 | ✓ | ✓ |
| 2025 | Bruce, Canberra | Semester 2 | 28 July 2025 | ✓ | ✓ |
| 2026 | Bruce, Canberra | Semester 1 | 16 February 2026 | ✓ | ✓ |
| 2026 | Bruce, Canberra | Semester 2 | 10 August 2026 | ✓ | ✓ |
| 2027 | Bruce, Canberra | Semester 1 | 15 February 2027 | ✓ | ✓ |
| 2027 | Bruce, Canberra | Semester 2 | 09 August 2027 | ✓ | ✓ |

Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules](#) and [university policy](#).

Course requirements

Graduate Diploma in Building and Construction Information Management (ABG101) | 24 credit points

Required - Must pass 24 credit points as follows

[Expand All](#) | [Collapse All](#)

Required Units - Must pass 21 credit points as follows

Management Information Systems G (9503) | 3 credit points – Level G

Technological Innovation and Entrepreneurship G (11530) | 3 credit points – Level G

Introduction to Building Information Modelling G (11805) | 3 credit points – Level G

Integrated Construction Procurement G (11806) | 3 credit points – Level G

Integrated Project Management G (11807) | 3 credit points – Level G

Advanced Topics in Building and Construction Information Management PG (11810) | 3 credit points – Level P

Building Information Modelling Management PG (11812) | 3 credit points – Level P

Restricted Choice - Must pass 3 credit points from the following

Building Information Modelling Technology G (11808) | 3 credit points – Level G

Contract Administration G (12147) | 3 credit points – Level G

- from 2025, 12147 Contract Administration G is available for enrolment. Students who have already completed unit 11808 will not need to complete this unit.

In addition to course requirements, in order to successfully complete your course you must meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course
