About this course

Give birth to an inspirational career with midwifery

Make a difference to the lives of women and their families with UC's innovative Bachelor of Midwifery. Upon completion of this three-year full-time or five-year part-time degree, you'll play a vital role in building strong communities as a creative and socially valuable midwife.

The degree accepts a small cohort of students each year, which allows for a highly flexible and personalised learning experience, giving you the opportunity to develop a very special bond with your fellow midwifery students.

The Bachelor of Midwifery offers Work Integrated Learning (WIL) opportunities in a variety of practice areas and starts early in your first year of full-time study. Over the course of your degree, you'll undertake a total of 1310 hours of clinical placements, including the provision of woman-centred care to 22 women during their journey through pregnancy, labour, birth and the postnatal period. The course has an extremely high graduate employment rate, and feedback from industry is that it produces 'sensational' midwives.

Study a Bachelor of Midwifery at UC and you will:

- work with women in pregnancy, labour, birth and early parenting using a primary health framework
- participate in WIL placements, including rostered and on call shifts tending to women in labour and birth
- learn to contribute to the development of services, policies and research into maternity care now and as a future leader
- work at individual, family and community levels to facilitate all women's rights to, and responsibilities in, active participation in their maternity care
- contribute to new understandings of midwifery and other work by participating in research activities
- experience a variety of workplace settings, including birth centres, regional and rural maternity units, and tertiary hospitals.

Work Integrated Learning (WIL)

WIL is essential to the process of becoming a midwife. With a total of 1310 practice hours across the three years of this course, UC invests significantly in WIL compared with other universities. From the moment you begin your studies, you'll engage in clinical practice experience across a range of ACT Health and Southern NSW maternity settings, such as Calvary Public Hospital, Centenary Hospital for Women and Children, and Queanbeyan District Hospital.

You'll support the birth journeys of 22 individual women during your time on the course and will graduate job-ready, with an in-demand qualification from an innovative university.

The opportunity to participate in a two-week Study Abroad WIL program in the Indo-Pacific region has been offered in previous years. These programs are currently on hold due to COVID-19 but may be offered in the future. You'll also be encouraged to join the University of Canberra Midwifery Society, which has student engagement as a primary focus.

Please note: throughout your degree you will be working in continuity with women and will be required to attend their regular antenatal and postnatal visits, and be on call for the woman's labour and birth. The nature of continuity work means that you will need flexibility in both your personal and professional life and be able to adjust your commitments accordingly.

Career opportunities

Upon completion of the Bachelor of Midwifery, you'll be eligible to register as a midwife in Australia across a variety of settings, including rural and remote areas, hospitals, birth centres, communities and in women's homes.

Professional accreditation

This course is accredited with the Australian Nursing and Midwifery Accreditation Council (ANMAC). Graduating students will be eligible to apply for registration as a midwife with the Nursing and Midwifery Board of Australia.

Admission requirements

To apply you will be required to:

- (i) have completed Year 12 or a similar level of study
- (ii) meet normal University requirements for admission to an undergraduate course and
- (iii) submit a curriculum vitae (CV) and a written response to the questions included on the supplementary application form <https://www.canberra.edu.au/about-uc/faculties/health/study/supplementary-forms>

Applications are judged on both how well they meet the admission requirements (i) and (ii) and how well they consider the issues raised in the supplementary questions (iii).

Admission to this course is competitive. Applications will be assessed on the basis of academic merit and the number of available places. Domestic applications will open on the 1st September. First offer round applications must be received by 30th November with offers being released mid-December. Applications remain open while vacancies exist for ongoing consideration of offers.

Applications from international students are accepted on an ongoing basis while vacancies exist. Please refer to the key dates (<https://www.canberra.edu.au/future-students/apply-to-uc/key-dates>) for further information.

Additional admission requirements

National Police Check, Immunisations, TB Screening, Working with Vulnerable People Registration, NSW Health forms (Code of Conduct Agreement, TB Assessment Tool, Student Declaration).

Assumed knowledge

ACT: English (T) major; Studies in Science (Chemistry and Biology) and Mathematics are highly recommended. NSW: English Advanced; Studies in Science (Chemistry and Biology) and Mathematics are highly recommended.

Periods course is open for new admissions

Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules and university policy](#).

Course requirements

Bachelor of Midwifery (HLB001) | 72 credit points

Required - Must pass 69 credit points as follows

[Expand All](#) | [Collapse All](#)

- Indigenous Health: Contemporary Issues (7434) | 3 credit points – Level 2
- Professional Orientation (Midwifery) (11294) | 3 credit points – Level 1
- Women In Pregnancy and Beyond (11295) | 9 credit points – Level 2
- Complexity in Early Parenting (11296) | 3 credit points – Level 2
- Pharmacology and Diagnostics in Midwifery (11297) | 3 credit points – Level 2
- Women in Labour and Beyond (11298) | 9 credit points – Level 2
- Continuity Midwifery A (11299) | 6 credit points – Level 3
- Sharing Contemporary Knowledge in Midwifery (11300) | 3 credit points – Level 3
- Perinatal Mental Health (11301) | 3 credit points – Level 3
- Frameworks for Midwifery (11302) | 3 credit points – Level 3
- Continuity Midwifery B (11303) | 6 credit points – Level 3
- Professional Evidence (Midwifery) (11304) | 3 credit points – Level 3
- With Woman With Child (11333) | 6 credit points – Level 1
- The Work of Birth (11334) | 6 credit points – Level 1
- Growing a Family (11335) | 3 credit points – Level 1

Restricted Choice - Must pass 3 credit points from the following

- Systemic Anatomy and Physiology (6529) | 3 credit points – Level 1
- Foundations of Anatomy and Physiology (10298) | 3 credit points – Level 1

In addition to course requirements, in order to successfully complete your course you must meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course
