

## Bachelor of Health Science (Nutrition Studies) (HLB102.1)

Please note these are the 2021 details for this course

### Domestic students

---

Selection rank 60

**Note:**

The selection rank is the minimum ATAR plus adjustment factors required for admission to the program in the previous year. This is an indicative guide only as ranks change each year depending on demand.

---

English language requirements

An IELTS Academic score of 6.0 overall, with no band score below 6.0 (or equivalent).

[View IELTS equivalences](#)

---

Duration 3.0 years

---

UAC code 365267

---

Faculty Faculty of Health

---

Discipline Discipline of Sport and Exercise Science

---

Location UC - Canberra, Bruce

---

Fees 2021: Commonwealth Supported Place  
2022: Commonwealth Supported Place

**Disclaimer:**

Annual fee rates

The fees shown are the annual fee rates for the course. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. Students enrolled in a Commonwealth Support Place (CSP) are required to make a contribution towards the cost of their education, which is set by the Commonwealth Government. Information on Commonwealth Supported Places, HECS-HELP and how fees are calculated can be found [here](#).

### International students

---

Academic entry requirements

To study at UC, you'll need to meet our academic entry requirements and any admission requirements specific to your course. Please read your course admission requirements below. To find out whether you meet UC's academic entry requirements, visit our [academic entry requirements page](#).

---

## About this course

### Discover your passion for nutrition

In studying a Bachelor of Health Science (Nutrition Studies) you will complete a range of foundation subjects to develop a sound scientific background in human nutrition including physiology, nutrition and food science. You will also investigate the factors that impact what effects food and nutrients have on our physical, social, mental and environmental wellbeing.

Gain knowledge in the different nutritional practices and what role guidelines play. Graduate with specialist knowledge of the physiological, social, and epidemiological factors influencing diet-related diseases prevalent in societies today as well as across the lifespan and populations. Further study opportunities for this degree include Bachelor of Health Science (Honours), Master of Public Health and Master of Occupational Therapy.

## Study a Bachelor of Health Science (Nutritional Studies) at UC and you will:

- Work individually, collaboratively and ethically while building professional networks in the health sector.

- Translate and communicate discipline specific knowledge to a variety of health-related audiences such as professionals, government and non-government representatives and clients.
- Develop and apply critical analysis skills to a range of contemporary health related issues
- Identify factors influencing food behaviour, attitudes, safety and availability.
- Assess and apply relevant nutrition assessment practices and guidelines.
- Evaluate and critique nutritional assessments across the life-span, different populations and disease states.
- Identify and explain the sources and function of nutrients in dietary patterns and their role in maintaining health.

## Work Integrated Learning

Work Integrated Learning (WIL) is at the very centre of all UC degrees. You'll complete units designed to help you develop the professional skills essential for employment in the health industry. You will work and study in real-world situations, learning from industry-active professionals and world-class scholars and graduate highly employable with the skills and knowledge for success.

As part of your degree you will undertake a 120-hour WIL experience during the final year of your course.

## Career opportunities

- Nutrition and community education environments
- Health promotion
- Food industry and food regulation
- Government policy
- Research in nutrition

## Course Specific Information

You will be required to hold a valid Working with Vulnerable People registration.

Graduates of the Bachelor of Health Science (Nutrition Studies) may be eligible for registration as an Associate Nutritionist with the Nutrition Society of Australia.

Students wanting to progress to the Master of Nutrition and Dietetics should enrol in the Bachelor of Human Nutrition (686AA).

## Professional accreditation

None.

## Admission requirements

Admission to this course is based on an entrance rank. A rank can be achieved by the following means:

- Year 12 ATAR
- other Australian Qualification
- work experience
- overseas qualification

We also offer a number of entry initiatives that give you the opportunity to gain entry to the University via alternate pathway programs and admissions schemes.

More information is available on our Alternative Entry page: <http://www.canberra.edu.au/future-students/applications/apply-now/alternative->

[entry](#)

## Assumed knowledge

ACT: Chemistry and Mathematical Methods majors. NSW: Chemistry and Mathematics.

## Periods course is open for new admissions

## Credit arrangements

A credit transfer arrangement is available for this course for the following institutions:

### Other Australian Tafe

[Any Australian Certificate IV \(AQF4\) \(25713\)](#)

[Any Australian Diploma \(AQF5\) \(25653\)](#)

### University Of Canberra College

[Diploma of Health \(28394\)](#)

## Course requirements

### Bachelor of Health Science (Nutrition Studies) (HLB102) | 72 credit points

Required - 48 credit points as follows

Core Major in Health Science (CM0017) | 24 credit points

Required - Must pass 24 credit points as follows

[Systemic Anatomy and Physiology \(6529\) | 3 credit points – Level 1](#)

[Regional Anatomy and Physiology \(9808\) | 3 credit points – Level 1](#)

[Industry and Community Engagement \(Health\) \(10120\) | 3 credit points – Level 3](#)

[Introduction to Research in the Health Sciences \(11398\) | 3 credit points – Level 1](#)

Understanding People and Behaviour (11399) | 3 credit points – Level 1

Professional Orientation (Health) (11400) | 3 credit points – Level 1

Professional Practice (Health) 1 (11401) | 3 credit points – Level 2

Professional Evidence (Health) (11402) | 3 credit points – Level 3

#### Specialist Major in Nutrition Studies (SM0037) | 24 credit points

##### Required - Must pass 24 credit points as follows

Food Science (8251) | 3 credit points – Level 2

Nutrition Across the Lifecycle (8253) | 3 credit points – Level 3

Nutrition and Disease (8255) | 3 credit points – Level 3

Nutritional Science (8257) | 3 credit points – Level 2

Nutrition, Society and Health (8259) | 3 credit points – Level 3

Sports Nutrition (8721) | 3 credit points – Level 3

Introduction to Food Science (9279) | 3 credit points – Level 1

Introductory Nutrition (9280) | 3 credit points – Level 1

##### Open Electives - 24 credit points as follows

- - Must pass 24 credit points from anywhere in the University, as a breadth major, a breadth minor and/or as individual units.

In addition to course requirements, in order to successfully complete your course you may need to meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course

## Typical study pattern

### UC - Canberra, Bruce

Standard Full Time, Semester 1 Commencing

#### Year 1

##### Semester 1

Introductory Nutrition (9280)

Professional Orientation (Health) (11400)

Regional Anatomy and Physiology (9808)

Understanding People and Behaviour (11399)

##### Semester 2

One Open Elective unit

Introduction to Research in the Health Sciences (11398)

Nutritional Science (8257)

Systemic Anatomy and Physiology (6529)

#### Year 2

##### Semester 1

Introduction to Food Science (9279)

Two Open Elective units

Professional Practice (Health) 1 (11401)

##### Semester 2

One Open Elective unit

Food Science (8251)

Nutrition and Disease (8255)

Nutrition, Society and Health (8259)

#### Year 3

### Semester 1

Sports Nutrition (8721)

One Open Elective unit

Industry and Community Engagement (Health) (10120)

Nutrition Across the Lifecycle (8253)

Standard Full Time, Semester 2 Commencing

### Year 1

#### Semester 2

Introduction to Research in the Health Sciences (11398)

Introductory Nutrition (9280)

Professional Orientation (Health) (11400)

Systemic Anatomy and Physiology (6529)

### Year 2

#### Semester 1

Understanding People and Behaviour (11399)

One Open Elective unit

Introduction to Food Science (9279)

Regional Anatomy and Physiology (9808)

### Year 3

#### Semester 1

Two Open Elective units

Nutrition Across the Lifecycle (8253)

Sports Nutrition (8721)

### Year 4

#### Semester 1

Three Open Elective Units

Industry and Community Engagement (Health) (10120)

### Semester 2

Three Open Elective Units

Professional Evidence (Health) (11402)

#### Semester 2

Food Science (8251)

Nutritional Science (8257)

Professional Practice (Health) 1 (11401)

One Open Elective unit

#### Semester 2

Nutrition and Disease (8255)

One Open Elective unit

Nutrition, Society and Health (8259)

Professional Evidence (Health) (11402)

## Course information

## Course duration

Standard 3 years full time or equivalent. Maximum 10 years.

## Learning outcomes

Learning outcomes	Related graduate attributes
<p>Work individually, collaboratively and ethically while building professional networks in the health sector.</p>	<p>UC graduates are professional: work collaboratively as part of a team, negotiate, and resolve conflict; display initiative and drive, and use their organisational skills to plan and manage their workload; and take pride in their professional and personal integrity.</p> <p>UC graduates are global citizens: think globally about issues in their profession; behave ethically and sustainably in their professional and personal lives.</p> <p>UC graduates are lifelong learners: reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; be self-aware and adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas.</p>
<p>Translate and communicate discipline specific knowledge to a variety of health-related audiences such as professionals, government and non-government representatives and clients.</p>	<p>UC graduates are professional: employ up-to-date and relevant knowledge and skills; communicate effectively; and use creativity, critical thinking, analysis and research skills to solve theoretical and real-world problems.</p> <p>UC graduates are global citizens: communicate effectively in diverse cultural and social settings.</p>
<p>Develop and apply critical analysis skills to a range of contemporary health related issues.</p>	<p>UC graduates are professional: use creativity, critical thinking, analysis and research skills to solve theoretical and real-world problems.</p>
<p>Identify factors influencing food behaviour, attitudes, safety and availability.</p>	<p>UC graduates are professional: employ up-to-date and relevant knowledge and skills; and work collaboratively as part of a team, negotiate, and resolve conflict.</p>
<p>Assess and apply relevant nutrition assessment practices and guidelines.</p>	<p>UC graduates are professional: employ up-to-date and relevant knowledge and skills; communicate effectively; and work collaboratively as part of a team, negotiate, and resolve conflict.</p> <p>UC graduates are global citizens: think globally about issues in their profession; and understand issues in their profession from the perspective of other cultures.</p>
<p>Evaluate and critique nutritional assessments across the life-span, different populations and disease states.</p>	<p>UC graduates are professional: employ up-to-date and relevant knowledge and skills; and use creativity, critical thinking, analysis and research skills to solve</p>

theoretical and real-world problems.

UC graduates are global citizens: think globally about issues in their profession; adopt an informed and balanced approach across professional and international boundaries; and communicate effectively in diverse cultural and social settings.

UC graduates are lifelong learners: reflect on their own practice, updating and adapting their knowledge and skills for continual professional and academic development; and adapt to complexity, ambiguity and change by being flexible and keen to engage with new ideas.

Identify and explain the sources and function of nutrients in dietary patterns and their role in maintaining health.

UC graduates are professional: employ up-to-date and relevant knowledge and skills.

## Placements requirements

Students may require: - Working with vulnerable people

## Majors

- [Specialist Major in Nutrition Studies \(SM0037\)](#)
- [Core Major in Health Science \(CM0017\)](#)

## Awards

Award	Official abbreviation
Bachelor of Health Science (Nutrition Studies)	B HthScience (NutrSt)

## Honours

Students who complete this course with a GPS of 5.5 or more may be eligible for admission to 318JA Bachelor of Health Science (Honours).

## Alternative exits

In order for the Diploma of Health Studies to be awarded the student must have: a) completed 24 credit points with at least 12 credit points at Level 1 b) completed a minimum of 12 credit points at UC and c) obtained a minimum of 12 credit points in any of the health disciplines. In order for the Associate Degree in Health Studies to be awarded the student must have: a) completed 48 credit points with at least 12 credit points at Level 1 and 12 credit points at Level 2 b) completed a minimum of 24 credit points at UC and c) obtained a minimum of 24 credit points in any of the health disciplines.
