About this course

Becoming a medication specialist starts here

If you're interested in a career as a medication specialist, then the UC Bachelor of Pharmacy course will equip you with the skills, knowledge, experience, and qualifications required to become an official Australian registered pharmacist. This four-year, full-time course teaches the science behind the practical preparation of drugs and medicines to treat injuries, illnesses, and deficiencies - and explores how to apply evidence-based knowledge, research, and scientific theory to the clinical reasoning, treatment, and evaluation of patients. This course also offers an embedded Honours program for high-achieving students looking to progress into pharmacy research or academic careers. If you're looking for a well-paid, fulfilling career helping others - then register for the UC Bachelor of Pharmacy course now.

Study a Bachelor of Pharmacy at UC and you will:

- be educated in the theoretical, technical, written, practical and clinical components of pharmacy
- explore the science behind the preparation of drugs and medicines
- learn how to prepare a wide range of drugs and medicines
- understand how the human body reacts to certain medications acquire and apply clinical reasoning, treatment and evaluation skills to life sciences
- combine theory with hands-on experience in practical laboratory classes and clinical placements.
- gain the necessary knowledge, exposure, attitudes and clinical decision-making skills required to practice as a pharmacist achieve a globally recognised accreditation.

Work Integrated Learning (WIL)

WIL allows students to work alongside, with, or for professional or government organisations allowing you to gain valuable hands-on experience and build professional relationships before they graduate. This approach ensures that UC students are aware of what is going on their specialist industries, possess a wide range of professional contacts, and as a result have a higher chance of employment upon graduation.

As part of this course, each student will have the opportunity to participate in multiple 2-week placements that take place over the winter semesters at metropolitan, rural or regional community and hospital pharmacies. Some students choose to do these placements overseas.

Students will also get to participate in half day or full day work placements throughout each of the teaching semesters.

Career opportunities

A registered UC Bachelor of Pharmacy graduate is an important component of any healthcare team as they can assess a variety of medical ailments and possess the knowledge to recommend a range of drugs and medicines to help resolve or manage multiple medical issues.

Also, as the global aging population continues to grow, the demand for qualified pharmacy graduates capable of offering additional services such as asthma care, blood pressure monitoring, and more is expected to increase.

In addition, each UC Bachelor of Pharmacy graduate leaves UC with a comprehensive list of industry and stakeholder contacts and should have no problem moving into positions in the following areas:

- as a practicing pharmacist, working in a community or a hospital pharmacy

- as a regulator within the government and broader pharmaceutical industry.

Course-specific information

As part of the degree, students will be required to undertake clinical placements and will need to be able to prove that they are fully vaccinated and able to pass standard police checks to comply with government health and security regulations.

Professional accreditation

This course is fully accredited by the Australian Pharmacy Council.

Admission requirements

Admission to this course is based on an entrance rank. A rank can be achieved by the following means:

- Year 12 ATAR
- other Australian Qualification
- work experience
- overseas qualification

We also offer a number of entry initiatives that give you the opportunity to gain entry to the University via alternate pathway programs and admissions schemes.

More information is available on our Alternative Entry page: <http://www.canberra.edu.au/future-students/applications/apply-now/alternative-entry>

Additional admission requirements

All students in the Bachelor of Pharmacy course are required to complete clinical practice placement in blocks of time, often outside of teaching time. These clinical practice placements are essential to the program. Prior to commencing clinical practice, all students need to present a complete immunisation schedule as a requirement of the ACT and NSW health departments. All students are required to undergo an Australian Federal Police Record check prior to undertaking clinical placement in the ACT, and a NSW Police check before undertaking placement in NSW.

All pharmacy students will be registered as students with the Pharmacy Board of Australia after admission to the Bachelor of Pharmacy course

Assumed knowledge

ACT: Mathematical Methods major and either Biology or Human Movement major(s); and Chemistry or Physics major(s). NSW: Mathematics and either Biology or Human Movement, and Physics or Chemistry.

Periods course is open for new admissions

Credit arrangements

There are currently no formal credit transfer arrangements for entry to this course. Any previous study or work experience will only be considered as part of the application process in accordance with current [course rules](#) and [university policy](#). Credit is not permitted towards completion of a graduate certificate.

Course requirements

Bachelor of Pharmacy (HLB301) | 96 credit points

Required - 72 credit points as follows

[Expand All](#) | [Collapse All](#)

Core Major in Allied Health (CM0023) | 24 credit points

Required - Must pass 12 credit points as follows

[Systemic Anatomy and Physiology \(6529\) | 3 credit points – Level 1](#)

[Regional Anatomy and Physiology \(9808\) | 3 credit points – Level 1](#)

[Introduction to Research in the Health Sciences \(11398\) | 3 credit points – Level 1](#)

[Understanding People and Behaviour \(11399\) | 3 credit points – Level 1](#)

Restricted Choice - 12 credit points as follows

Bachelor of Sport and Exercise Science - Must pass 12 credit points as follows

[Research and Professional Practice Part A \(6cp\) \(9813\) | 0 credit points – Level 3](#)

[Research and Professional Practice Part B \(9814\) | 9 credit points – Level 3](#)

[Professional Orientation \(Health\) \(11400\) | 3 credit points – Level 1](#)

Bachelor of Physiotherapy - 12 credit points as follows

Required - Must pass 9 credit points as follows

[Professional Orientation \(Health\) \(11400\) | 3 credit points – Level 1](#)

[Clinical Physiotherapy 1 \(11536\) | 3 credit points – Level 4](#)

Clinical Physiotherapy 2 (11537) | 3 credit points – Level 4

Restricted Choice - Must pass 3 credit points from the following

Evidence Based Practice (Honours) (8987) | 3 credit points – Level 4

Evidence Based Practice (8988) | 3 credit points – Level 4

Bachelor of Pharmacy - Must pass 12 credit points as follows

Pharmacy Practice 3 (9011) | 3 credit points – Level 4

Professional Orientation (Pharmacy) (11125) | 3 credit points – Level 1

Dispensary Practice (11127) | 3 credit points – Level 2

Pharmacy Practice 5 (11501) | 3 credit points – Level 4

Bachelor of Exercise Physiology and Rehabilitation - Must pass 12 credit points as follows

Research and Professional Practice Part A (6cp) (9813) | 0 credit points – Level 3

Research and Professional Practice Part B (9814) | 9 credit points – Level 3

Professional Orientation (Health) (11400) | 3 credit points – Level 1

Bachelor of Occupational Therapy - Must pass 12 credit points as follows

Group Work (6853) | 3 credit points – Level 2

Professional Orientation (Health) (11400) | 3 credit points – Level 1

Integrated Physiology (11726) | 3 credit points – Level 3

Aboriginal and Torres Strait Islander People's Health Contexts (11852) | 3 credit points – Level 2

Specialist Major in Foundations of Pharmaceutical Science (SM0052) | 24 credit points

Required - Must pass 24 credit points as follows

Essential Pharmacology (9002) | 3 credit points – Level 2

Pathology, Immunology and Microbiology (10288) | 3 credit points – Level 2

Pharmaceutical Science 1 (11614) | 3 credit points – Level 2

Pharmaceutical Science 2 (11615) | 3 credit points – Level 2

Chemical Concepts (11724) | 3 credit points – Level 1

Fundamentals of Biochemistry (11733) | 3 credit points – Level 2

Biochemistry and Metabolism (11734) | 3 credit points – Level 2

Chemical Foundations (11768) | 3 credit points – Level 1

Note:

- 11724 Chemical Concepts has replaced 1517 Chemistry 1B.
- 11733 Fundamentals of Biochemistry has replaced 6530 Biochemistry.
- 11734 Biochemistry and Metabolism has replaced 6518 Human Biochemistry.
- 11768 Chemical Foundations has replaced 1516 Chemistry 1A.

Specialist Major in Pharmacotherapeutics (SM0079) | 24 credit points

Required - Must pass 24 credit points as follows

Clinical Therapeutics 1 (9003) | 3 credit points – Level 3

Systems Pharmacology 1 (9005) | 3 credit points – Level 3

Clinical Therapeutics 2 (9006) | 3 credit points – Level 3

Systems Pharmacology 2 (9008) | 3 credit points – Level 3

Clinical Therapeutics 3 (9009) | 3 credit points – Level 4

Clinical Therapeutics 4 (9010) | 3 credit points – Level 4

Pharmacy Practice 4 (9012) | 3 credit points – Level 4

Systems Pharmacology 3 (9013) | 3 credit points – Level 4

Restricted Choice - Must select 1 of the following

Professional Stream - 24 credit points as follows

Required - Must pass 18 credit points as follows

Evidence Based Medicine 1 (8999) | 3 credit points – Level 2

Evidence Based Medicine 2 (9001) | 3 credit points – Level 2

Pharmacy Practice 1 (9004) | 3 credit points – Level 3

Pharmacy Practice 2 (9007) | 3 credit points – Level 3

Patient-centred Communication (11616) | 3 credit points – Level 1

Research in Quality Use of Medicines (11644) | 3 credit points – Level 4

Restricted Choice - Must pass 6 credit points from the following

Counselling Communication (5258) | 3 credit points – Level 1

Intro to Counselling Theory & Principles (5549) | 3 credit points – Level 1

Database Design (5915) | 3 credit points – Level 1

Information Systems in Organisations (6348) | 3 credit points – Level 1

Immunology (6512) | 3 credit points – Level 3

Indigenous Health: Contemporary Issues (7434) | 3 credit points – Level 2

Nutrition Across the Lifecycle (8253) | 3 credit points – Level 3

Nutritional Science (8257) | 3 credit points – Level 2

Physiology of Exercise 1 (8391) | 3 credit points – Level 2

Health Psychology and Behaviour (8736) | 3 credit points – Level 2

Introductory Nutrition (9280) | 3 credit points – Level 1

Small Business Management (9531) | 3 credit points – Level 2

Cross-Cultural Professional Practice (9855) | 3 credit points – Level 3

Health Promotion Principles and Practice (10009) | 3 credit points – Level 3

Public Health Systems and Policy (10076) | 3 credit points – Level 1

Business Decision Making (11009) | 3 credit points – Level 1

Cultures and Diversity (11129) | 3 credit points – Level 1

Introduction to Management (11174) | 3 credit points – Level 1

The Entrepreneurial Mind - Foundations of Entrepreneurship (11198) | 3 credit points – Level 1

Business Law (11220) | 3 credit points – Level 2

Law, Innovation and Technologies (11271) | 3 credit points – Level 3

Introduction to Public Policy (11378) | 3 credit points – Level 1

Chemical Analysis (11769) | 3 credit points – Level 2

Note:

- a. 11769 Chemical Analysis has replaced 8043 Analytical Chemistry
- b. 8073 Haematology is no longer offered from 2022. Students who have already completed this unit can still have it counted as a restricted choice unit.

Honours Stream - Must pass 24 credit points as follows

Evidence Based Medicine 1 (8999) | 3 credit points – Level 2

Pharmacy Practice 1 (9004) | 3 credit points – Level 3

Pharmacy Practice 2 (9007) | 3 credit points – Level 3

Patient-centred Communication (11616) | 3 credit points – Level 1

Honours: Literature and Evidence (11617) | 3 credit points – Level H

Honours: Project Design (11618) | 3 credit points – Level H

Honours: Thesis (Part A) (11619) | 3 credit points – Level H

Honours: Thesis (Part B) (11620) | 3 credit points – Level H

In addition to course requirements, in order to successfully complete your course you must meet the inherent requirements. Please refer to the [inherent requirements statement](#) applicable to your course

Majors

- [Specialist Major in Pharmacotherapeutics \(SM0079\)](#)
- [Core Major in Allied Health \(CM0023\)](#)
- [Specialist Major in Foundations of Pharmaceutical Science \(SM0052\)](#)

Awards

Award	Official abbreviation
Bachelor of Pharmacy	B Pharm
Bachelor of Pharmacy (Honours)	B Pharm (Hons)

Honours

In order to graduate with honours, you must:

- Attain a GPA of at least 5.5 to enter the Honours program and then maintain a GPA of at least 5 across all other units undertaken in the Bachelor of Pharmacy whilst completing the Honours program; and

- Achieve an Honours GPA, as determined in accordance with this policy, of at least 5. The Honours GPA is calculated by adding the grade point average of all Pharmacy Honours units undertaken.

Pharmacy degrees with Honours are awarded in the following classes depending on the Honours GPA obtained and the standard of the Honours Paper.

- First Class: both an Honours GPA of at least 6 and a mark of at least 85% for the honours thesis
- Second Class - Division I: both an Honours GPA of at least 5.5 and a mark of at least 75% for the honours thesis
- Second Class - Division II: both an Honours GPA of at least 5 and a mark of at least 65% for the honours thesis

Calculating the Honours GPA

- GPAs are calculated by using the University's system. The Honours GPA will be calculated as above solely for the Pharmacy Honours units
- Be aware that marks are not automatically rounded up for purposes of Honours. Thus 4.99 does not become 5.00. Where your final mark is within two points of the next level of Honours, or of achieving Honours at all (eg a 4.8 is rounded up to 5.0), you can apply in writing to have your Honours result upgraded. This will be determined by the Associate Dean (Education) and the Pharmacy Honours Unit Convenors, taking into account your academic record and any mitigating circumstances which may have affected your academic performance.

Please refer to the Honours Guide for this course for further information.

Alternative exits

In order for the Diploma of Health Studies to be awarded the student must have:

- a) completed 24 credit points with at least 12 credit points at Level 1
- b) completed a minimum of 12 credit points at UC and
- c) obtained a minimum of 12 credit points in any of the health disciplines.

In order for the Associate Degree in Health Studies to be awarded the student must have:

- a) completed 48 credit points with at least 12 credit points at Level 1 and 12 credit points at Level 2
- b) completed a minimum of 24 credit points at UC and
- c) obtained a minimum of 24 credit points in any of the health disciplines.
