UC - Canberra, Bruce

Fees

2021: \$20,100 per year

2022: \$20,100 per year

Disclaimer:

Annual fee rates

The fees shown are the annual fee rates for the course. The annual rate is the fee that applies to standard full-time enrolment, which is 24 credit points. The final fee charged is based on the proportion of 24 credit points in which a student enrolls. Students enrolled in a Commonwealth Support Place (CSP) are required to make a contribution towards the cost of their education, which is set by the Commonwealth Government. Information on Commonwealth Supported Places, HECS-HELP and how fees are calculated can be found [here](#).

About this course

As sport and health agendas continue to grow both nationally and internationally, roles within the sporting team are becoming more pivotal to optimise the preparation of athletes across all developmental levels. Maximising the performance of athletes is largely dependent on their ability to be physically prepared to withstand the rigors of their chosen sport. As such there is a growing need for exceptional graduates in this field. The Graduate Certificate in Strength and Conditioning at UC aims to provide the opportunity for current and future coaches to develop their knowledge and practical skills in line with key competencies of the profession. The course is constructed to include core building blocks of knowledge around training modalities, planning and monitoring, and coach communication. The course is two semesters in duration and is in a predominantly online format.

Admission requirements

A completed bachelor degree in Sport and Exercise science or related field*.

Or

A completed bachelor degree in a non-related field with successful completion of University level units relating to human anatomy, human physiology, biomechanics and basic exercise prescription.

Non-degree entrance:

Those individuals without a degree who have 5 years' experience working full-time in a strength and conditioning role will be considered. Please contact the Course Convenor for further details. Suitability for non-degree entrance is assessed via communications with the Course Convenor.

*Related fields include Human Movement Science, Exercise Science, Sport Science, Sport and Health Science; Exercise and Health, Sport and Physical Activity, Exercise Physiology, Physiotherapy and Rehabilitation Science.

Assumed knowledge

Minimum recognised Undergraduate Level: Anatomy Biomechanics Human Physiology Basic exercise prescription
