About this course

Care for others and make a difference

This two-year Masters degree will allow students with any undergraduate degree to graduate as a Registered Nurse (RN) in Australia.

Flexible in design, you'll study in intensive blocks of theory and clinical placements, supported through interactive online content. Experience technology-enhanced learning and innovative teaching to provide contemporary, relevant, and flexible content.

Grow through hands-on learning, simulation, exploration of essential theory and complete clinical placements in a variety of rural and urban settings appropriate to the level of study.

Apply your own experience to your study and graduate a curious, dynamic thinker who provides safe, quality, evidence-based care with the ability to adapt to an ever-changing health environment.

Study a Master of Nursing Practice at UC and you will:

- explore a wide range of nursing practices and contexts including primary health care and health promotion, long-term and residential care, mental health, acute and critical care, rural and remote services, and policy development
- acquire foundational knowledge and skills to provide safe, sensitive, effective and holistic nursing care to people of all ages and backgrounds
- participate in clinical laboratories, tutorials, lectures and seminars with face-to-face and online teaching
- understand, apply and develop nursing leadership management skills in a range of settings
- acquire in-depth knowledge and understanding of Aboriginal and Torres Strait Islander health
- develop and broaden your knowledge, skills, and attitude to work and prepare for real-world clinical practice
- undertake professional practice to ensure readiness for employment as a beginning nurse clinician.

Work Integrated Learning (WIL)

WIL is a vital component of this course. Over the two years, you will be required to complete 800 hours of clinical practice across a range of local and regional medical settings - including paediatric, aged care, medical and surgical, theatre, emergency department (ED) and intensive care unit (ICU).

UC coursework is immersive and engaging with numerous ongoing simulated learning experiences using cutting-edge technology designed to mimic real-life scenarios. Our campus' offer multiple high fidelity simulated learning environments allowing UC Master of Nursing Practice students to experience direct clinical practice in a safe and controlled setting.

Participating placement venues include: Canberra Hospital, North Canberra Hospital, Goulburn Base Hospital, and several additional private healthcare clinics in and around ACT, Sydney and regional New South Wales, e.g., Bega.

A core component of the UC nursing coursework takes place within the simulated environment, where students have the opportunity to develop and hone clinical skills and behaviours in spaces that look and feel like the clinical environment. UC nursing students can expect to spend hours rehearsing and practicing together utilising a myriad of simulation trainers, manikins, emerging technology (such as AI and VR), and even actors as they prepare for clinical practice.

Career opportunities

There are a plethora of career opportunities for registered nurses who can work in all aspects of nursing from Emergency departments, medical and surgical wards, Operating departments, primary health care, rehabilitation and mental health.

This course also fosters both digital health and leadership skills and graduates will be perfectly placed to work towards clinical leadership and management positions.

Course-specific information

The Registered nurse standards for practice consist of the following seven standards:

1. Thinks critically and analyses nursing practice
2. Engages in therapeutic and professional relationships
3. Maintains the capability for practice
4. Comprehensively conducts assessments
5. Develops a plan for nursing practice
6. Provides safe, appropriate and responsive quality nursing practice
7. Evaluates outcomes to inform nursing practice.

You must be able to show competency against these standards to gain registration as a nurse in Australia.

Please refer to the [Inherent Requirements](#) for the Master of Nursing Practice.

Professional accreditation

Professionally accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration with the Australian Health Practitioner Regulation

Agency (AHPRA).

This two year full-time course can also be studied part-time. The Nursing and Midwifery Board of Australia has developed a set of registration standards that define the requirements that applicants, registrants or students need to meet to be registered. Core standards cover criminal history, English language skills, continuing professional development, recency of practice and professional indemnity insurance arrangements. The standards can be accessed via this link: <https://www.nursingmidwiferyboard.gov.au/registration-standards.aspx>

Admission requirements

(i) A completed Australian bachelor degree (or recognised International equivalent) in any discipline, completed within 10 years of application.

(ii) For domestic students, whose bachelor degree was completed more than 10 years prior to application, evidence of higher educational e.g. post graduate certificate or diploma since award of the degree 10 year period can be considered.

Admission to this course is competitive. Applications will be assessed on the basis of academic merit and the number of available places.

Applications for 2025 are closed.

Domestic applicants

Applications from domestic applicants will be accepted on a yearly basis from 1 May of the preceding year and close on 15 October of the preceding year. Applicants who are eligible for an offer will be placed on a waitlist and offers will be released in rounds on the first week of each month commencing in August. Any applicant who is not successful in the round, will remain on a waitlist for further rounds while vacancies exist.

International applicants

Applications from international applicants will be accepted on a yearly basis from 1 April of the preceding year and close on 15 October of the preceding year. Applicants who are eligible for an offer will be placed on a waitlist and offers will be released in rounds on the first week of each month commencing in June. Any applicant who is not successful in the round, will remain on a waitlist for further rounds while vacancies exist.

Offers

Offers will clearly indicate a deadline by which applicants must accept. If the offer is not accepted by this date, it will be rescinded. Offers for this course cannot be deferred.

This course has limited places available. Not all applicants who meet the application deadline and requirements may be successful. Early application is advised.

Additional admission requirements

- Immunisations

- TB Screening
- National Police Check
- NSW Health forms
- Working With Vulnerable People
- First Aid/CPR

Assumed knowledge

None.

Periods course is open for new admissions

Year	Location	Teaching period	Teaching start date	Domestic	International
