WHY CHOOSE UC?

The University of Canberra is focussed on providing students with practical learning opportunities through Work Integrated Learning. We link students with industry and real-life projects, engage in simulations within the classroom, and provide access to global experiences through international internships or our Study Abroad program.

We are passionate about providing our students with a launching pad for phenomenal careers through facilitating a truly memorable university experience. Our commitment to creating work-ready graduates through quality education and research has resulted in our #1 ranking in the ACT for graduate starting salaries and full-time employment.

*November 2018  †Overall employment rate
Careers UC connects students with job and internship opportunities on and off campus. We support students as they develop their employability skills and seek and secure employment, as well as guiding them in their career pathways.

Our Jobs on Campus program provides students with relevant, professional, and paid work on campus. Students can work in roles including Student Ambassador, Library ASK Advisor, Food and Beverage Attendant, Communications Officer, Administration Assistant, Events Coordinator, and Data Entry Officer – just to name a few.

UC gives students real-world experience so they can put theory into practice. By embedding Work Integrated Learning opportunities into all our courses, we enhance student readiness for the workplace.

UC's sector-leading programs include:

- Knowledge Exchange Placement Program
- Scholarships for students undertaking placement
- PwC Industry Based Learning Program
- A full semester of credit for students undertaking a paid internship at PwC Canberra
- International internships
- University-wide programs in Singapore, Malaysia, Thailand, and more
- Campus Development: Students have the chance to get involved with our Campus Development projects at all stages, from design to construction
- Rural and Regional Programs
- Placements and internships in and around Canberra

Our students were key in the University of Canberra Public Hospital (UCPH) build, through a three year cadet-ship program with Multiplex.
Work Integrated Learning (WIL) is central to our approach to education. Our renowned program enhances our students’ employability in the workplace and is an integral component of our courses. We strive to include Work Integrated Learning in every single course across all faculties with a variety of options for students.

Internships involve the placement of students in a work environment relevant to their course with a required number of hours. With supervision from employers, students learn about their unit in a structured work environment.

Industry, Research and Community Projects engage students in their local communities, research centres and industry by making a social, research, technical and/or educational contributions.

Clinical Placements are required by professional accreditation and are key components of courses in Health.

Teaching Professional Experience is a component woven into courses or units at all year levels for education. Students complete extensive classroom practice as part of their teaching qualification.

Professional Mentoring by industry experts is a key aspect of the Work Integrated Learning relationship with community stakeholders.

UC AND PWC HELPING STUDENTS EARN AND LEARN

UC’s new paid internship program created in partnership with PwC gives four students a taste of their future careers and a head-start in their chosen field.

In this six-month program, students undertake paid work placements with PwC that fully integrates with the University’s curriculum. By replacing classroom learning with on-the-job experience, UC demonstrates its commitment to mobilising its outstanding industry partnerships to produce work-ready and highly skilled graduates.

The University of Canberra and PwC have teamed up to offer students studying STEM-related degrees paid internships.
CLAUDIA JENKINS
Bachelor of Management / Bachelor of Science in Psychology

I chose UC because it’s essentially a bigger version of my home town, Wagga Wagga. As the first in my family to attend university, I found that the double degree in Bachelor of Management and Bachelor of Science in Psychology was the prefect fit for me. I had previously attended the Open Days and Widening Participation’s UC 4 Yourself Day, so I was convinced early about where I would be completing my studies.

My journey so far has been nothing short of fun, inspiring and challenging, and I have enjoyed the way that living on campus has allowed me to be involved with more activities and groups than I could have imagined.

WIDENING PARTICIPATION
02 6206 3972  canberra.edu.au/widening-participation  aspireuc@canberra.edu.au

Committed to student equity in higher education, UC provides opportunities to people from a range of backgrounds. Widening Participation (WP) manage the delivery of several UC outreach initiatives. These are externally funded through the Australian Government’s Higher Education Participation and Partnerships Program (HEPPP).

The WP Team, including current UC students, work with participating secondary school across the ACT and NSW. Within these schools they aim to engage students who have:

• a rural and/or regional background
• an Aboriginal and/or Torres Strait Islander background
• a history of financial disadvantage, and/or
• little or no family experience of higher education.

Explore their website for more information on each of their programs including:

• Raising Aspirations Online Modules
• Teacher Professional Development
• Aboriginal and Torres Strait Islander Outreach Programs
• Resources for school and careers advisors
CAMPUS DEVELOPMENT

UC’s Bruce campus is an extraordinary place, and by 2030 it will be even better. People from around the world will visit and experience a new model community in action, where people, young and old, live an educated life.

The planning for this transformation is driven by a vision of how universities will operate in the future. Abolishing the boundaries between the academic, industry and community, UC will be established as a showcase of the confluence of living, learning, innovation and entrepreneurship. At the heart of this development will be the principles of co-creation and collaboration, offering fresh opportunities for national and international partnerships, transformational research, enriched learning experiences and vibrant commercial and networking activities.

This campus development vision aligns with our specific goals of:

• Creating opportunities for our students to be engaged across all areas of the campus development and operations as part of experiential learning programs
• Opening up and integrating the UC campus with the surrounding district of Belconnen and strengthening partnerships with local educational and professional institutions
• Enhancing Canberra’s reputation as a knowledge city and educational capital and growing the knowledge economy by developing an entrepreneurial hub where industry, research and community come together in the exploration of ideas and pursuit of solutions
• Standing out as a showcase of innovative urban design in a characteristically Australia landscape, and promote healthy and active lifestyles for people of all ages and abilities, and ensuring that, by developing the UC campus as a smart city within the city, we deliver cutting edge communication technologies and connectivity to the community.
At UC, we set students up for a global career by integrating international study opportunities into nearly all our degrees. When students study overseas, they strap in for an unforgettable, once-in-a-lifetime experience. Study Abroad enables students to gain course credit towards their degree, whilst gaining an international perspective, making lifelong friends, achieving an internationally recognised degree, and gaining an opportunity to network and find future employment.

We make studying overseas easy by helping students tap into our network of exchange partners across the world and take advantage of funding opportunities that will help finance their international adventure.

**INTERNATIONAL STUDY OPTIONS**

**Exchange Programs**

Students can study at one of our amazing exchange partner universities in Europe, Asia and the Americas. Students remain enrolled as a full-time student and pay tuition fees at UC while overseas.

**Faculty-Led Programs**

Designed and led by UC faculty members specifically for UC degrees, these short-term programs stretch over two to five weeks. Run like international field trips, these adventures form part of a unit, meaning students can travel and kick study goals at the same time.

**Short independent Programs**

If course requirements, work obligations or family commitments hold students back from experiencing a semester abroad, they can consider a short-term program. Available during the summer and winter breaks, they provide students with an opportunity to study and travel overseas without disrupting normal study periods. A popular choice is the Oxford International Human Rights Summer School.

**International Internships**

Students can amp up their practical experience while discovering what it’s like to live and work overseas with an international internship. Internships can be organized through the university as part of our faculty led programs, or independently through external providers.
Domestic students can apply for a variety of private, government, and internally funded scholarships to assist with study costs such as textbooks, accommodation, and relocation costs. In most cases, students are selected following a competitive application process. Applying is easy – students can submit one application to be considered for every scholarship for which they’re eligible.

International students have a number of government and internally funded scholarships available to them to assist with study costs and tuition fees. In most cases, students are automatically considered for internally funded international scholarships, but can apply for other scholarships offered in association with UC.

How to apply

Our scholarships are only available for students who have been offered or have accepted their offer to study at UC.

Domestic Scholarship Examples

Manteena Scholarship for Leaders in Construction *

VALUE

Awarded to Building and Construction students. Provides industry experience and a basis for leadership development.

$15,000

Rotary Club of Hall Scholarship *

VALUE

Awarded to financially disadvantaged students from the ACT or regional NSW who are active within the community.

$15,000

Onshore International Scholarship Examples

Chief Minister’s University of Canberra Information Technology and Communications Technology Scholarship *

VALUE

Awarded to students studying in the field of ICT who plan to bring their skills to the Canberra region.

$10,000

University of Canberra International Merit Scholarship **

VALUE

Awarded to all international students who are applying for admission to a bachelor’s or master’s degree coursework.

10% of total tuition fee

* Awarded to successful students on application  ** Awarded at the time of offer to eligible students
We understand that challenges can stand in the way of students gaining acceptance to their dream degree. Delivered by our on-campus education partner, the University of Canberra College is dedicated to making students’ dream to study at university a reality. UC College provides an alternative entry pathway to UC for students who may not have qualified for direct entry.

Centrally located on UC’s Bruce campus, UC College students are welcome to utilise all on-campus services and facilities.

UC College provides students with a head-start in their studies through a range of Enabling and Higher Education Diploma Programs suited to both current school leavers and mature-age students. The best bit? UC College provides students with a direct entry arrangement into UC in either the first or second year of the corresponding bachelor’s degree.

Successfully completing one of our Academic Pathway Programs guarantees students a place at UC, and our highly-qualified staff make sure students graduate from UC College with the necessary skills to take on a bachelor’s degree.

If students have applied to UC directly but haven’t received an offer, they will automatically receive an offer from UC College.

With these fantastic options, there’s no need to panic if students have missed the ATAR cut-off or did not receive an ATAR.

**HOW STUDENTS CAN APPLY**

Take the first steps to becoming a student at UC College.

Browse through our courses and choose the right one for you.

Make sure you read the entry requirements carefully and ensure you meet them before applying. This will help streamline your admission to UC College.

Students are able to apply directly to UC College via UC’s online applicant portal canberra.edu.au/apply-now or via email pathways@canberra.edu.au. Applications close at the end of the first week of class.

If students would like to make an appointment with a UC College Course Advisor, contact UC College Student Centre on 1800 864 226 or email pathways@canberra.edu.au

**UC COLLEGE FEES**

**Domestic**

Commonwealth-supported enabling places are available for Australian and New Zealand citizens or permanent residents of Australia for each program. There is also a Student Services Amenities Fee. For more information, visit studyassist.gov.au

Aboriginal and Torres Strait Islander Foundation Program is free of charge.

**International**

International fees apply, visit canberra.edu.au/college *

*Note: progression into selected program depends on overall results achieved and course availability.*

### STUDY AREAS

- English Language
- Foundation Studies
- Business
- Business Informatics
- Communication
- Design
- Information Technology
- Health
- Network and Software Engineering
- Science
- Graduation Certificate in Academic Foundations

* A student’s pathway depends on the overall results they achieve and course availability. Students must pass all course unit requirements within the program to be guaranteed entry into University of Canberra. International applicants, please refer to UC College international entry requirements.

† If your entry score falls outside these course requirements, your application may be considered on a case-by-case basis. Students will receive 24 credit points against their Bachelors degree unless otherwise stated.

UC College is operated by University of Canberra College Pty Limited ABN 51 080 888 231, a jointly owned college of the University of Canberra (UC) and Navitas Limited delivering programs on behalf of UC.
BUSINESS, GOVERNMENT AND LAW

Business, Government and Law are the primary institutions that shape our complex world. UC is ideally located in Canberra, at the heart of Australian power and politics. Our world-class, connected academic staff provide students with access to the heavyweights driving our future. While studying, students gain real-world experience and build invaluable networks of industry contacts.

KEY RANKINGS

• Accounting study areas rated five-stars for starting salary*
• Business and Management study areas rated five-stars for starting salary*
• Law study areas rated five-stars for starting salary*
• Paralegal study areas rated five-stars for starting salary*
• Economics study areas rated five-stars for starting salary*

• University of Canberra’s Law and Paralegal study areas are ranked in the top five nationally for generic skills development**
• University of Canberra’s Law and Paralegal study areas are ranked in the top five nationally for generic skills development**

KEY FACILITIES

UC’s Moot Court is one of the first technology orientated courtrooms in Australia. Giving Law and Justice students the opportunity to gain court experience. This teaching space has also been utilised as a real courtroom and witness training space, as well as a site for research projects on the use of video conferencing.

Work Integrated Learning

Internships in the Faculty of Business, Government and Law involve up to 220 hours of hands-on learning. They are available to both undergraduate and postgraduate level students. There are many specialised programs requiring advance applications:

• Students may choose to undertake an internship in their third year or complete a project-based internship in their first or second year.
• Students can embark on an international adventure through Industry Study Tours to improve their global employability skills.
• As part of the Small Business Legal Advice Clinic, students from UC’s School of Law and Justice assist qualified local legal practitioners in providing initial advice to small business operators with legal problems or queries concerning their business. This service is provided in conjunction with Legal Aid ACT.

KEY FACILITIES

Workshop Lab

Opened mid-2018, this architecturally innovative space serves as a hub for Design students. This space has a digital fabrication lab and a laser cutting lab allowing students to use start of the art facilities to showcase their ideas.

Work Integrated Learning

The Faculty of Arts and Design has Work Integrated Learning at every level of study. While Work Integrated Learning is mandatory in all courses, the Faculty also gives student the opportunity to undertake further Work Integrated Learning through elective units.

In the Faculty of Arts and Design, Work Integrated Learning focuses on industry and community engagement through International and Industry Programs. Students are encouraged to embrace the opportunity to apply theories and concepts they have learnt in the classroom to the workplace. At the same time, the organisations they work for benefit from a fresh and innovative student approach.

KEY FACILITIES

University of Canberra Hospital: In the second half of 2018, UC opened a Specialist Centre for Rehabilitation, Recovery and Research on campus.

UCRISE

The University of Canberra Research Institute for Sports and Exercise Science has been created to align with UC’s sporting aspirations. The research coming out of UCRISE has been rated Above World Standard by the Australian Research Council.

Nursing Laboratories

These facilities provide an authentic learning experience for undergraduate Nursing students by mimicking the clinical environment. Nurse/patient interaction is emulated through simulations such as manikins, part task trainers, silicone masks and role play.

For more information on the Nursing Laboratories, please visit our website www.canberra.edu.au/facilities/laboratories

Work Integrated Learning

The Faculty of Health has several Work Integrated Learning options for students including professional clinical placements, non-clinical placements and research and community projects.

Many Health courses require accreditation to work in the relevant sectors after study. To gain accreditation, a pre-determined amount of clinical placement hours are required. UC organises these placements for students either within the Canberra region or rurally. Placements occur in health settings relevant to a student’s chosen degree, providing students with the opportunities to put their learnt skills to practical use.

- 147,000 job openings over the next five years
- Bachelor’s degrees make up 55.1% of education levels in the field
- 26.5% of workers are aged 25-34

### Bachelor of Medical Radiation Science (Medical Imaging)
Pathway through UC College
UC Connect
University of Canberra
International Foundation Studies

Medical Imaging Professionals
Operate X-ray and other radiation producing and imaging equipment for diagnostic, monitoring and treatment purposes under the direction of radiologists and other medical practitioners.*

- Average pay of $1,720 a week
- 20,500 workers in the field
- 72.1% people work full time
- 11,000 job openings over the next five years
- 43.5% workers are aged 25-34

### Bachelor of Health Science (Human Movement)
Pathway through UC College
Diploma of Health

Life Scientist
Examine the anatomy, physiology and biochemistry of humans, animals, plants and other living organisms to better understand how living organisms function and interact with each other and the environment in which they live.*

- Average pay of $1,645 a week
- 9,600 workers in the field
- 82.5% people work full time
- 5,000 job openings over the next five years
- Bachelor’s degrees make up 49.5% of education levels in the field

Pathway to Physiotherapy**
Assess, treat and prevent disorders in human movement caused by injury or disease.*

- Average pay of $1,250 a week
- 25,000 workers in the field
- 70.6% people work full time
- 13,000 job openings over the next five years
- Bachelor’s degrees make up 62.5% of education levels in the field

---

*Fast Facts/Career Outcomes sourced from [joboutlook.gov.au](http://joboutlook.gov.au), correct as at 26 February, 2019

** Students wanting to study Physiotherapy who haven’t received the required ATAR are encouraged to enroll in the Bachelor of Health Science Human Movement as a pathway degree.
SCIENCE AND TECHNOLOGY

UC’s faculty of Science and Technology offers world-class academic programs in Environmental, Medical, and Forensic Science, Information Technology, Information Systems, Engineering, and Mathematics in a hands-on learning environment. Dynamic teaching combined with strong industry partnerships provide our students with a multi-disciplinary, work-integrated experience like no other.

KEY RANKINGS

- Computing and Information Systems study areas rated five-stars for full-time employment*
- Sciences study areas rated five-stars for skills development and full-time employment*
- Mathematics study areas rated five-stars for skills development and full-time employment*
- Engineering and Technology study areas rated five-stars for student support*
- University of Canberra’s Science and Mathematics graduates rank in the top four nationally for employment**

ACCREDITATIONS

<thead>
<tr>
<th>ACS</th>
<th>EA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Australian Computer Society — Professional Level</td>
<td>Engineers Australia — Professional Level</td>
</tr>
</tbody>
</table>

KEY FACILITIES

Robotic Workshop
Staff and student space to work on robotics and robotic-human interaction.

Mega Lab
Digitally enhanced science laboratory supporting microbiology, chemistry, biochemistry, ecology and biophysical science.

Innovation Workshop
Specialist computer lab for mobile technology and game programming.

Forensics Lab
Part of the National Centre for Forensic Studies, this lab is a combined teaching and research facility. It was designed to mimic the Australian Federal Police lab and is used as a backup lab.

Internet of Things Lab
This Network Engineering Workshop is a dedicated space for student projects with equipment allowing students work with drones, wi-fi networks and sensor equipment, amongst others.

Work Integrated Learning
The Science and Technology faculty offers students Work Integrated Learning through internships, research and community projects and placements. Science and Technology offers high achieving students the unique chance to participate in UC’s Knowledge Exchange Program. This program provides students with a scholarship and the opportunity to undertake an internship for a whole semester, earning 12 credit points.

KEY FACILITIES

The Inspire Centre is an education hub that facilitates the exploration of new approaches to learning, communication collaboration. As a dedicated learning commons, the Inspire Centre empowers students and academics to imagine, experiment and design new ways of digitally working and learning.

Work Integrated Learning

The faculty of Education offers Work Integrated Learning opportunities through UC’s Professional Experience Program. Students complete professional experience placements under the relevant unit. Each unit has a different teaching focus which becomes the premise for the placement, such as implementing the Australian curriculum in mathematics, science, technologies, arts and English, plus a large variety of other specialised teaching subjects.
