

Appendix 5: Research Internship Project Plan (for all internships)

To be submitted as part of the PhD Plus Industry Internship Contract Agreement

Project Title:

Project Background/overview:

- Briefly provide an overview of the industry context and describe the problem the candidate will be addressing during the industry internship.
- Identify the expertise the Host is seeking and explain how the Candidate's skills and knowledge will be applied to the outlined problem.
- Identify if this is a section of a larger project and if so, how it will contribute to the larger project.

Expected Internship Project duration:

3 months

4 months

5 months

6 months

Propose how the intern will undertake the internship:

Eg, Part time, 2 days per week; Full time 5 days per week

Expected Project start date

(This is an approx. date and can be altered)

Research activity:

- Outline what research activities will the candidate be carrying out during the industry internship, for example, processing and classification, designing and synthesising, developing software etc.

Project outcome

What are the expected outcomes for the project, for example, identify most profitable target segments, update, identify alternative pathways or change in policy or develop new testing protocol.

- List 3 outcomes you wish the candidate to achieve during the internship:
 - 1.
 - 2.
 - 3.

Project deliverables:

What deliverables are expected from the candidate, for example, a feasibility report, a prototype device, a software model. Will the result stand-alone or be integrated into existing systems?

- List up to 3 deliverables you would like to see from the candidate during or on completion of the internship:

- 1.
- 2.
- 3.

Outcomes for candidate:

- Please identify the expected outcomes for the candidate:
 - What transferrable skills will be developed from this placement opportunity?
 - How does this placement contribute to the development of the candidate's career?
 - What broader outcomes do you expect the candidate to achieve due to undertaking this industry internship?
