

HDR INDUSTRY INTERNSHIPS

Fuel Innovation. Access emerging research talent. Make real impact.

We invite you to collaborate with our outstanding doctoral candidates by hosting an HDR research internship and help shape the next generation of research leaders

Partnering with the University of Canberra (UC) on a research internship gives industry partners the opportunity to collaborate with exceptional doctoral candidates who bring fresh ideas, specialised expertise, and strong research capability.

Our HDR candidates work across a wide range of research areas including education, environment, culture, creativity, technology, government and health, making it easy to find the right match for your organisational goals.

Benefits for your organisation	Benefits for our HDR candidates
<ul style="list-style-type: none">✓ Solve real challenges through research-driven insights Our HDR candidates bring advanced research skills to help explore solutions, test ideas, and contribute to meaningful innovation.✓ Build your future workforce Engage with highly skilled emerging researchers and strengthen your potential employee pipeline✓ Collaborate with leading researchers Work closely with UC academics and contribute to research that benefits both industry and the broader community	<ul style="list-style-type: none">✓ New insights Internships enhance research quality by broadening context and deepening candidates' understanding in their area of research✓ Practical industry experience Acquire practical skills, and develop capabilities and expertise within industry✓ Professional Networks Connections with industry support candidates to develop their future career pathways

Funding and cost considerations

No financial commitment is required for organisations to host a UC HDR research internship. Your contribution comes through providing a meaningful project, a suitable work environment, and staff supervision.

Funded internships are welcomed and greatly valued.

Whether funded or unfunded, your partnership plays a vital role in developing Australia's next generation of research leaders.

About the research internship

Duration: Minimum duration of 3 months with at least 60 days FTE of engagement

Flexibility: Full-time or part-time; remote, on-site, or hybrid arrangements.

Supervision: Professional development supervision provided by your nominated staff and academic supervision from one of our leading researchers at UC.
