

The title: SUMMER VACATION - JU MI KIM
(Typography)

Subcategory for my work is for Visual Communication Design.

Description:

- This project was done by the typography that I learned in Graphic Design class.
- Using the typography with three colours, all objects, including house, dog and sky, demonstrated my happy memory of my summer vacation to Boston in America with my puppy.
- Various fonts were used to express my feeling about the vacation.
- I was intrigued by the beauty of Boston's sky and wanted to communicate some of that with my art.
