

Jimmy Choo

I attended a Design Masterclass with Jimmy Choo when he was on the Gold Coast in 2023. We were given a template and medium and asked to design a shoe using our imagination and surroundings as inspiration.

In the lead up to the event, I challenged myself to create a collection of shoes using antique homewares as my inspiration. I was fortunate enough that Professor Choo took the time to review my drawings and gave me some excellent feedback on the creative process.
